iExamine Support and Maintenance and Major Crime Module Development

In August 2017 a contract was awarded to Injenuity Ltd to provide IT consultancy and development services to EMSOU-FS to enable the delivery of agile CSI working solutions.

As a result of the above project a mobile crime scene application (iExamine) has been implemented across the region and there is now a need for the ongoing support and maintenance of the application and additionally some development work for the inclusion of a major crime module.

A compliant route to procure the services of Injenuity has been identified under the Crown Commercial Services (CCS) G Cloud framework, via direct award.

The value of the contract is £64,500 for 2 years with an option to extend for 2 x 12 months
