

AWS Quarterly Report January – March 2025

Overview

This report is to provide information about visits undertaken by Animal Welfare Scheme Visitors (AWS) between 1st January and 31st March 2025.

Visits

For information, the decision has been made to record the AWS from year start to year end rather than in line with the financial year. We will, however, continue to publish quarterly reports.

In 2024, there were three dogs, that were not seen. These have been marked on the list below with '*' and the volunteers have been asked to prioritise seeing these dogs during visits in 2025.

For the first quarter of 2025, report forms have been received for a total of 2 visits. Highlighted in green below, are the dogs that were visited by AWS Volunteers.

Examples of good practise

Casey - Good interactions with kennel manager.

Rosie - Allowed own bedding in kennel. Was very relaxed in bedding area when visited.

Akira - Lovely positive interaction with manager.

Causes of concern

No causes for concern were raised by the volunteers.

Conclusion

- 6 dogs were visited last quarter
- All of the feedback received from the volunteers in quarter 4 was very positive and there were no causes of concern highlighted.
