

## AWS Quarterly Report July – September 2025

### Overview

This report is to provide information about visits undertaken by Animal Welfare Scheme Visitors (AWS) between 1<sup>st</sup> July and 30<sup>th</sup> September 2025.

### Visits

For information, the decision has been made to record the AWS from year start to year end rather than in line with the financial year. We will, however, continue to publish quarterly reports.

In 2024, there were three dogs, that were not seen. These have been marked on the list below with '\*' and the volunteers have been asked to prioritise seeing these dogs during visits in 2025.

For the third quarter of 2025, report forms have been received for a total of 2 visits. Highlighted in green below, are the dogs that were visited by AWS Volunteers in quarter 2.

### **Examples of good practise**

- All dogs were fit and well-groomed and all AWS requirements were being met. This was an effective visit well managed and supported by Kennel Staff which again demonstrated full compliance with the AWS requirements.

### **Causes of concern**

No causes for concern were raised by the volunteers.

### **Conclusion**

- 6 dogs were visited last quarter
- All of the feedback received from the volunteers in quarter 3 was very positive and there were no causes of concern highlighted.
