NARRATIVE REPORT

Introduction

These accounts set out the overall financial position of the Chief Constable for Derbyshire, who is responsible for Derbyshire Constabulary, for the year ended 31 March 2025.

Organisational Overview and External Environment

Derbyshire Constabulary serves an area of more than 1,000 square miles, and a population around one million.

Derbyshire is renowned for being hugely diverse. It encompasses the rural areas of the High Peak, Derbyshire Dales and the Derwent Valley, a World Heritage Site. These areas attract a significant amount of tourism throughout the year. In addition, there are old mining communities, modern towns and business centres. It is also home to the vibrant and culturally diverse city of Derby, a cosmopolitan city with a fantastic heritage.

Governance

The Police and Crime Commissioner and the Chief Constable are established as separate legal entities under the Police Reform and Social Responsibility Act 2011. This Act created a Police and Crime Commissioner for Derbyshire (PCC), known as the 'Commissioner' and at the same time the Chief Constable was established as a separate body with responsibility for Derbyshire Constabulary.

The primary function of the body headed by the Chief Constable is the exercise of operational policing duties under the Police Act 1996. The Commissioner's function is to hold the Chief Constable to account for the exercise of these duties, thereby securing the maintenance of an efficient and effective police service in Derbyshire.

More detail on the governance framework comprising the systems and processes, culture and values by which Derbyshire Police is directed and controlled are contained within the Annual Governance Statement, which accompanies the Chief Constable's Statement of Accounts.

Overview

Derbyshire Constabulary has continued to maintain a strong momentum, observing positive change, performance improvement and development across all areas of the force. The ongoing drive throughout the organisation is premised upon our commitment to delivering an excellent service to the communities of Derbyshire, one they can trust. Our core purpose is to fight crime, proactively bring offenders to justice and protect the most vulnerable from harm.

The Police Uplift Programme (PUP) has been a success in Derbyshire, resulting in an extra 283 police officers with the original uplift target being delivered six months ahead of schedule, the force was also able to support the National Police Uplift Programme, recruiting a further 27 officers as part of the 'overshoot' programme which increased our baseline establishment to 2,137 from March 2024.

In 2024 we introduced new values, chosen by our workforce which represented what is most important to them and in 2025 we have continued our journey to deliver our vision to be an outstanding force, supported by our One Derbyshire Plan for 2023-25. The One Derbyshire Plan is intended to deliver cultural and organisational improvement through five key work streams. These are:

- Leadership
- Internal Communication and Engagement,
- Wellbeing, Learning and Development of staff
- and Standards and Behaviours.

Organisational Model

Policing in Derbyshire is divided into two geographic areas known as Divisions. Each Division is headed by a Chief Superintendent, known as the Divisional Commander, who is responsible for the overall policing of the area. Divisions are divided further into a series of Local Policing Units, led by an inspector. Within each policing unit sit our Safer Neighbourhood teams. Safer Neighbourhoods are about police and partners working with the public to identify and deal with issues of concern in their neighbourhood. These areas are patrolled by police officers, special constables and police community support officers (PCSOs). Local policing is complemented by a range of support units and departments that operate across the Constabulary. These include the Contact Management Centre that answers 999 and non-emergency telephone calls, our roads policing section, dog section, National Police Air Service (NPAS), criminal justice, crime investigation and the forensic officers who work in our scientific support unit.

Derbyshire Constabulary employs approximately 2,137 police officers, 199 PCSOs and 181 Specials/Volunteers and 1,665 staff in full-time and part-time positions (excluding staff of the Commissioner). Active recruitment plans include positive action to improve the diversity and reflect more closely that of the County.

Basis for Preparation

For accounting purposes, the Commissioner and Chief Constable together are known as the PCC Group. A separate set of statutory accounts has been published for the Commissioner and PCC Group to recognise all the financial transactions incurred during 2024/25 for policing in Derbyshire.

The purpose of the Narrative Report is to outline the financial performance, financial position and cash flows of the Chief Constable during 2024/25 and provide an overview of the most significant matters reported in the accounts.

The 2024/25 Statement of Accounts is prepared in accordance with the Chartered Institute of Public Finance and Accountancy's (CIPFA) Code of Practice on Local Authority Accounting 2024/25. The Accounts reflect the current legislative framework as well as the local arrangements operating in practice. Key elements of this framework include: -

- The Police Reform and Social Responsibility Act 2011 (the Act).
- Accounts and Audit (England and Wales) Regulations 2015 & Accounts and Audit (Amendment) Regulations 2022.
- The Home Office Financial Management Code of Practice for the Police Service of England and Wales 2018.
- Scheme of Consent between the Commissioner and Chief Constable.
- The Financial Handbook of the Commissioner and Chief Constable.

The Accounts reflect that the Commissioner has responsibility for the finances of the whole Group and control of all land and buildings, liabilities and reserves. The Commissioner receives all income and funding and makes all the payments for the Group from the Police Fund. In turn the Chief Constable fulfils their functions under the Act within an annual budget (set by the Commissioner in consultation with the Chief Constable). A scheme of consent is in operation between the two bodies to give clarity to the way the two organisations are governed and how business is undertaken.

Financial Statements

The financial statements for the Chief Constable required under the 2024/25 Code consist of:

Comprehensive Income and Expenditure Statement (CIES)

This statement shows the accounting cost in the year of providing policing services under the direction of the Chief Constable for the 12 months to 31 March 2025, (as opposed to the overall cost of policing Derbyshire, which includes the cost of administering the Office of the Police and Crime Commissioner (OPCC) and OPCC expenditure on commissioning activities in relation to community safety, crime prevention and victim support, as shown in the Group Accounts). The CIES has been prepared by applying the accounting principles set out in the CIPFA Accounting Code of Practice. The headings replicate those used for the Constabulary's internal performance reports.

Movement in Reserves Statement

This summarises the movements to and from unusable reserves for the financial year 2024/25, which relate to post-employment benefits (pensions), benefits payable during employment (untaken leave at the financial year end) and financing of vehicles and equipment from capital resources. All usable reserves are held by the Commissioner as shown in the Group Accounts.

The Balance Sheet

This summarises the financial position of the Chief Constable as at the 31 March 2025 and sets out any assets, liabilities and reserves. The net assets of the Chief Constable (assets less liabilities) are matched by the unusable reserves held by the Chief Constable. These reserves are a product of the application of the Code; it should be noted that the Chief Constable does not hold usable reserves – they are all held by the Commissioner as shown in the Group Accounts.

The Cash Flow Statement

This shows the changes in cash and cash equivalents of the Chief Constable during the reporting period. As all the Group's cash flows are presented in the Commissioner's Accounts this statement simply shows the net surplus on provision of services adjusted for non-cash movements.

Accounting Policies

Accounting policies are the specific principals, conventions, rules and practices that are applied in preparing and presenting the annual accounts. The accounting policies for the Chief Constable applied in preparing the 2024/25 annual accounts are consistent with last year.

Other Contents

In addition to the financial statements, the annual accounts include a: -

- Statement of Responsibilities for the Accounts and information on the Police Officer Pension Fund (providing statements for pension fund income and expenditure, assets and liabilities)
- An Annual Governance Statement (AGS). This statement is a statutory document which explains the governance processes and procedures in place to enable Derbyshire Constabulary to carry out its functions effectively. Following the Police Reform and Social Responsibility Act 2011 the Chief Constable is required to produce their own AGS each year which must accompany the Chief Constable's Statement of Accounts

Notes to the Financial Statements provide more detail on individual transactions, including the Expenditure and Funding Analysis.

Audit Backlog

Due to the extensive audit backlog nationally, which had built up over a number of years, central government initiated a hard "backstop" date for all outstanding audit opinions on the accounts across the public sector. On 9 September 2024, the Government laid in Parliament a Statutory Instrument, 'The Accounts and Audit (Amendment) Regulations 2024', to implement mandatory audit completion "backstop" dates by which point local bodies must publish audited accounts. The Government's approach to clear the backlog of local audits and embed timely audit consisted of two parts:

- Reset measures involving clearing the backlog of historical audit opinions up to and including financial year 2022/23 by 13 December 2024.
- A recovery period after the Reset Measures that was designed to reduce the likelihood of the backlog re-emerging by using backstop dates to allow assurance to be rebuilt over one or more audit cycles.

The overarching objective of the proposals was to clear the backlog and reduce the likelihood of it returning. As a result of this legislation the Financial Statements for 2021/22 and 2022/23 were given a 'Disclaimed Opinion' from the then incumbent External Auditors Ernest Young, as even though the information had been prepared and was available from the organisation the external auditors did not have the time or resources to complete the full audit process within the new mandatory timescales.

The External Audit contract from 2023/24 onwards was awarded to Grant Thornton, however the disclaimed opinions for the 2021/22 and 2022/23 Statements have increased the volume of work required in auditing subsequent financial statements to build back to a clean opinion. Unaudited Opening balances inevitably lead to a lack of assurance overall as the current auditors cannot review in detail previous years evidence which has meant that the new External Auditors could not conclude that the accounts were historically free from material and pervasive misstatement of the financial statements. Whilst the new auditors have been able to be positive about the in-year transactions and value for money position of the organisation, the historical disclaimed opinion has resulted in a disclaimed opinion being issued by Grant Thornton for the 2023/24 statement of accounts, similar to the majority of public sector bodies affected by the backlog.

The impact of the disclaimed opinion in previous years presents an ongoing risk in subsequent years for the annual accounts whilst appropriate assurance is developed for all brought forward balances within the statements. It is important to highlight that the disclaimed opinion does not mean that the Financial Statements are mis-stated; it is a reference to the lack of audit resources and auditor time available to reach a conclusion within the audit review period. The disclaimed opinion should not therefore be seen as a reflection on the quality of the financial statements or of our commitment to work with our external auditors in responding to information requests, it is an expected consequence of the initial Audit Backlog.

Strategy and Resource Allocation

The revenue budget for 2024/25 was set at £231.761 million, which was an increase of 5.6% over 2023/24. The funding for this budget came from a combination of central government grants (Police Specific Grant, Localising Council Tax Support Grant and Revenue Support Grant (RSG)) of £137.644m, and locally raised Council Tax of £94.116m.

As a result of what is known as the 'gearing' effect (the ratio of government grants to overall funding), the impact of annual increases in grant on the overall budget can vary markedly between different forces. During the period 2014/15 to 2024/25 the Constabulary's revenue budget has increased by 40.7% from £164.7m to £231.8m. This equates to an average annual growth rate of 4.7%. In the same period Government Grant increased by 20.2% (from £114.5m to £137.6m) with the difference being met by local Council Taxpayers (£50.2m to £94.1m).

In addition to the £137.644m funding for the revenue budget, a grant of £28.923m was also received from the Home Office to cover the deficit on the police pension fund for the year.

The policing element of Council Tax for an average band D dwelling in Derbyshire was £279.60, an increase of £13 or 4.88% over 2023/24. This was the maximum increase the Commissioner could approve under the government's Precept Limitation regulations for 2024/25 without holding a local referendum.

The policing element of all Council Tax bandings in Derbyshire was as follows:-

Council Tax by Band	2023/24	2024/25
A	£ 177.73	£ 186.40
B	£ 207.36	£ 217.47
C	£ 236.98	£ 248.53
D	£ 266.60	£ 279.60
E	£ 325.84	£ 341.73
F	£ 385.09	£ 403.87
G	£ 444.33	£ 466.00
H	£ 553.20	£ 559.20

After taking into account all income sources, Derbyshire Police's gross expenditure budget was £265.852m which was allocated across major budget headings as follows: -

Financial Performance Report

During the year the force continued to face significant financial pressures from restrictions in core funding and but has maintained and improved services to the communities and businesses across Derbyshire. The main focus for increases in funding have been directed in recent years towards establishing and maintaining the government's pledge to recruit an additional 20,000 police officers.

The force successfully maintained its Uplift target and on 31st March 2025 it was employing 2,137 police officers, meaning it had maintained the 283 additional officers expected through the Home Office's original Uplift Programme, plus a further 27 now part of the Uplift Target from 2024/25. These additional 27 officers were added to the uplift target in following the Constabulary's successful additional recruitments as part of a re-allocation mechanism implemented to address shortfalls in recruitment elsewhere in the country in 2023/24.

Like many other organisations the Force has faced significant cost pressures from high levels of inflation experienced in the UK throughout the year and the knock-on effect of elevated pay settlements during 2024/25, all of which are expected to continue in 2025/26.

Heightened financial demands on the Constabulary continue to be felt from the impact on the UK economy of the ongoing conflict in Ukraine and the Middle East and uncertainty globally from geopolitical risks. This has resulted in increased costs from higher price rises across a range of areas including energy/utility costs, construction and repairs, uniform and other infrastructure spend, as well as creating a continuing difficult labour market in which to recruit and retain the best employees.

Whilst some additional government support was provided to alleviate the cost of the pay increase, much had to be absorbed by savings elsewhere. As the budget pressures from rising officer and staff costs together with non-pay inflation were predicted early in the 2024/25 financial year a detailed review of all previous year carry forwards was actioned, led by the Chief Constable. This rigorous re-examination of priorities enabled the Constabulary to identify £1.404m of earmarked reserves which could be released and placed into a ringfenced reserve to offset potential 24/25 Overspends. As these resources were one off in nature the major savings programme initiated in 2023/24 has continued to identify more sustainable reductions in costs which has allowed the organisation to deliver a balanced budget for 2025/26.

The continued impact of the external factors remain and are being considered and factored into our financial assumptions being made within the Medium-Term Financial Plan as we develop the best, worst and likely case scenarios for the coming financial years.

Revenue Outturn

The financial position for 2024/25, as set out in the table below shows an overspend against budget of £1.891m, this was largely cushioned by the £1.404m savings from carry forwards actioned within the year. The remainder of the overspend is largely accounted for through the necessity to increase the insurance provision by £0.210m and the upfront costs associated with planned early lease exit costs of £0.243m which will deliver revenue savings in subsequent years.

The Constabulary continues to invest in new technology as part of the National Enabling Programme to enhance and improve processes, reporting and performance. Future success in tackling crime and understanding demand will rely on managing information effectively and the use of powerful analytics. The Constabulary's vision is to be a data driven organisation, where advanced analytical capability is embedded and the workforce are enabled to draw insights to inform operational and strategic decision making.

Force Reserves remain low, which supports our investment and funding strategies that look to make the best use of internal resources first, to minimise increases in precept levels. This does however mean that the Constabulary cannot readily rely on reserves to support the revenue budget or indeed its future capital investment plans in the future.

Where did we spend the Money?

The majority of our costs relate to Employee Expenses, including Police Officers, Police Staff, including Police Community Support Officers and Pension Costs. The following table breaks down all areas of costs and income.

Expenditure Heading 2024/25	Revised Budget £m	Actual £m	Variance £m
Police Officer Pay & On Costs	131.869	132.786	0.917
Police Staff Pay & On Costs	62.297	61.412	(0.885)
Other Employee Expenses	0.887	1.060	0.173
Police Pensions	3.348	3.826	0.478
Premises	11.763	13.143	1.380
Transport	4.568	5.592	1.024
Supplies & Services	22.818	28.087	5.269
Pay & Price Contingency	(0.111)	-	0.111
Agency	0.272	0.353	0.081
Debt Charges	1.722	1.320	(0.402)
Revenue Contribution to Capital	3.074	2.669	(0.405)
Government Grants	(18.354)	(18.534)	(0.180)
General Income	(6.661)	(11.798)	(5.137)
Regional Units	11.778	11.744	(0.034)
Secondments	-	-	-
Interest Receipts	(1.282)	(1.514)	(0.232)
Contributions to/from Reserves	(0.475)	(0.379)	0.096
BCU Fund	0.030	(0.023)	(0.053)
Expenditure on National Policing	(0.300)	(0.199)	0.101
Other Specific Grants	0.062	(0.026)	(0.088)
Partnerships	0.631	0.471	(0.160)
Total for Derbyshire Constabulary	227,936	229.990	2.054
Office of the Police and Crime Commissioner	3.825	3.662	(0.163)
Total 2024/25 Approved Budget	231.761	233.652	1.891
Council Tax Collection Account Surpluses	-	-	-
Total for Derbyshire Constabulary	231.761	233.652	1.891

Key points to note in respect of individual variations in the previous table include: -

1. Police Officer Pay & Oncosts – £0.917m overspend.

This is split between Salaries and overtime as follows:

	£m
Salaries, allowances and other oncosts	0.152
Overtime Costs	0.765
Total	0.917

The **£0.152m** overspend on Police Officer Salaries was due to an over establishment of Police Officers at the start of the financial year.

The **£0.765m** overspend on Police Officer Overtime equated to an additional spend of 21% above the approved budget and the variation against budget is broken down between operational areas, as set out below.

Formation	£m
North Division	(0.006)
South Division	0.163
Operational Support	0.130
Contact Management	0.025
Crime Support	0.108
Derbyshire Major Crimes	0.042
Criminal Justice	(0.047)
General	0.304
Other Formations	0.046
Total Force Overspend	0.765

The 0.765m arose due to the increased overtime from Major Incidents, County Lines, and the inclusion of 0.470m of Allard Costs.

2. Police Staff Pay & Oncosts – (£0.885m) underspend.

The underspend represents 1.4% of the annual budget for police staff pay costs and reflects a higher level of vacancies than budgeted. A breakdown of the position across the main pay groups used for recording spend was as follows:

Pay Group	£m
PCSO's	(0.082)
Detective Staff Investigators	0.008
Force Contact Centre Staff	(0.295)
Enquiry Officers Staff	(0.149)
Driving Instructors / Trainers	0.002
Custody Detention Officers	(0.026)
All other Pay Groups	(0.343)
Total	(0.885)

3. Other Employee Expenses - £0.173m overspend.

The majority of this variance reflected the Constabulary's ongoing requirements to provide external training courses for officers and staff

4. Police Pensions – £0.478m overspend.

The force must meet the additional cost of police officer retirement through ill-health compared to normal 'service' or 'age' retirement. Fewer officers retired on the grounds of ill health during the year than had been budgeted for. The number can fluctuate from year to year depending on the number of applications that are made and more importantly whether they meet the strict criteria for ill health retirement. This resulted in an underspend of (£0.186m). The underspend was offset by the cost of lump sum and injury payments relating to historic retirements which were settled in 24/25. The breakdown of the overspend on Police Pensions is detailed in the following table:

Police Pensions	£m
Lump Sum Injury	0.140
Ill Health Capital Charge	(0.186)
Injury Allowance	0.524
Total	0.478

5. Premises – £1.380m overspend.

This was an area particularly impacted by the high levels of inflation which prevailed during the year together with the volume of remedial repairs and maintenance needed across the force's estate. The main headings of Premises costs which overspent during the year were as follows:

Premises	£m
Repair and Maintenance work	0.744
Utility costs	0.119
PFI costs	0.012
Cleaning Contract / Specialist Cleaning	0.303
Rent costs	0.132
Other Premises Costs	0.070
Total	1.380

6. Transport - £1.024m overspend.

Inflation also affected the costs of running the force's vehicle fleet, the main variances being as shown below. The increased expenditure on officers and staff mileage costs arose from a general increase across all departments in the numbers claiming travel expenses.

Transport	£m
Maintenance, Tyres, etc	0.271
Vehicle Fuel	(0.196)
Insurance costs	0.598
Other fleet running costs	0.044
Total Fleet running costs	0.717
Officer / Staff mileage costs	0.307
Total Transport costs	1.024

The increased expenditure on officers and staff mileage costs arose from a general increase across all departments in the numbers claiming travel expenses.

7. Supplies and Services – £5.269m overspend.

The variance has occurred across a range of budget headings, which contain both under and overspends. The largest variances are; -

- Costs associated with Custody Criminal Justice processes.
- Additional costs related to the introduction of the Governments legislation regarding the keeping of XL Bully Dogs under the Dangerous Dogs legislation.
- Additional Insurance costs were mainly the consequence of the assessment of future liabilities which the Constabulary may need to meet through its self-insurance arrangements. It is required to review such liabilities on a regular basis which can result in annual costs going up or down as claims are either settled or dismissed.
- IT Costs including those related to the deconstruction of PCIP capital spend which must now be charged to revenue
- National Police IT related costs,
- Professional Fees for Consultant Contractor Costs and Pension Remedy Costs.
- The overspend across this area also reflects the high levels of inflation that prevailed during the year.

Supplies & Services	£m
Accommodation & Subsistence	0.036
Custody Costs	0.109
Dangerous Dogs	0.268
Force Dogs	0.011
Equipment & Furniture	(0.017)
Financial Contracts	(0.063)
Firearms	(0.066)
Insurance	0.207
IT Costs	3.629
Legal Costs	0.196
National Police IT Services	0.231
NPAS	0.018
Professional Fees	0.460
Recovery of Vehicles	0.043
Recruitment & Selection - partly offset by income	0.137
Uniforms	(0.181)
Vehicle Equipment	0.034
Misc	0.217
Total Supplies & Services	5.269

8. Pay & Price Contingency – £0.111m overspent.

The Home Office agreed to assist in meeting the costs of the September 2024 pay award of 4.75% and we received a grant of £2,314,570 towards the cost in 2024/25. The force had budgeted for an increase of 2.5% but even with the additional grant the net effect of pay award costs generated an additional cost to the force of £0.111m.

9. Government Grants – £0.180m overspent.

This is partly due to the Home Office making additional in-year allocations of grant to support specific activities, such as the Election process and funding to support the increased budgetary pressure during 2024/25 for the civil disturbances (Operation Navette). This is offset by the £0.040m penalty we received from the Home Office for missing our Police Uplift Target by one full time equivalent in September 2024, and for the Pensions Grant due to EMCTIU.

The breakdown of the underspend is detailed in the below table.

Government Grants	£m
Police Uplift Programme Grant	0.040
Pension Grant	0.077
Government Grants General	(0.297)
Total	(0.180)

10. General Income – (£5.137m) additional generated.

Income generation is very difficult to forecast, being dependent on requests for services from outside parties and levels of activity outside the Constabulary's direct control. Therefore, budgets are set on a prudent basis. The main areas where more income has been generated than anticipated were:

General Income	£m
Local Authority / PCC - Contributions	(0.155)
Proceeds of Crime Income	(0.619)
Vehicle Recovery Charges	(0.153)
Cost Recovery Income	(4.422)
Special Services	(0.123)
Other Income	0.335
Total	(5.137)

11. Interest Receipts – (£0.232m) underspend.

The underspend is attributable to an increase in additional Investment Income which has arisen as a result of the slippage in the Capital Plan and therefore surplus cashflow which has benefited from the increase in bank rates.

12. Contributions to National Policing - £0.101 overspend.

The overspend relates to a shortfall in the re-imburement of income of our (£0.300m) budget we received under mutual aid arrangements.

13. Devolved Budgets to Local Command Team (BCU Fund) & Partnerships – (£0.213m) underspend

The underspend reflects the receipt of additional contributions from various partner agencies.

14. Office of the Police and Crime Commissioner – (£0.163m) underspend.

The underspend on the Office of the Police and Crime Commissioner budget has been added to the PCC's Grants & Commissioning Reserves.

Capital Programme

The Commissioner controls all land and buildings, and Derbyshire Constabulary has use of all these assets. The Commissioner receives all the funding to finance the total Capital Programme.

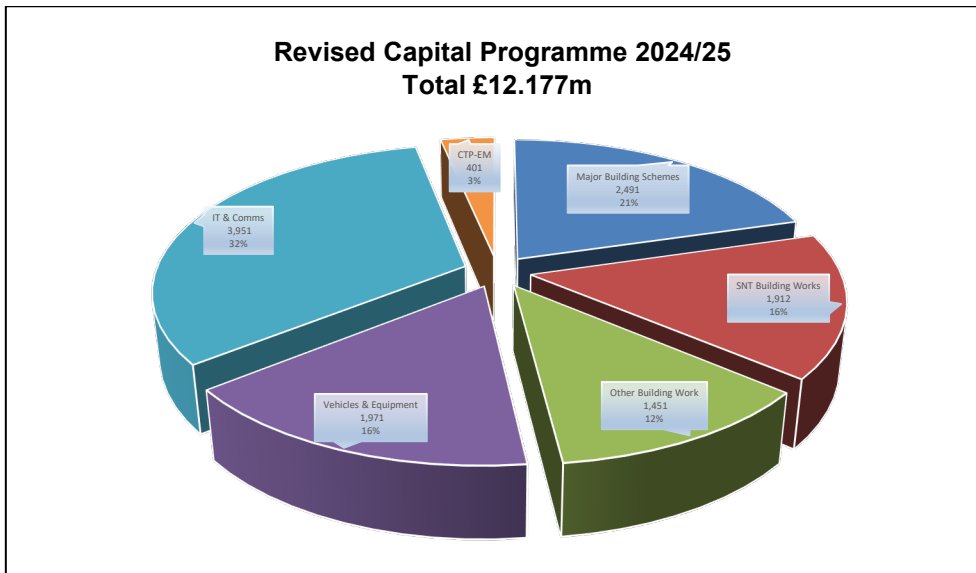

This is used:

- To replace police vehicles
- To maintain its buildings.
- To ensure its information technology systems are supported.
- To replace key items of operational and infrastructure equipment.

In addition to the ongoing capital commitments, there are several major projects which need to be progressed.

The Capital Programme for 2024/25 was originally set in March 2024 at £21.771m and as a consequence of scheme delays (including slippage) and other changes in the capital programme was later revised to £12.177m.

The Revised Capital Programme was allocated as follows: -

Actual expenditure against the programme totalled £6.502m as the plans and timescales for the new North Chesterfield DHQ and Custody Scheme and some technology changes were delayed which reduced the spend for the year and created further slippage towards the end of 2024/25. The actual spend for 2024/25 was as follows: -

Capital Programme	£m
SNT Building Work	1.411
Major Building Schemes	2.412
Other Building Work	1.494
Equipment and Vehicles	1.089
IT and Communications	(0.421)
Counter Terrorism Police - EM	0.517
Total	6.502

The expenditure was funded by: Borrowing (£4.353m), External Grant and Contributions (£1.730m), Revenue Contributions (£0.419m). There were no Capital Receipts.

In addition, Derbyshire's share of capital expenditure for the East Midlands Special Operations Unit (including East Midlands Technical Support Unit) and East Midlands Forensics was £0.837m, increasing total capital expenditure to £7.339m. This was funded entirely from Reserve/Revenue Contributions (£0.837m).

Main Capital Underspends Compared to Budget

Major Building Schemes – SNT building refurbishments / replacements continued and will complete fully in 2025/26 & 2026/27.

Other Building Schemes - This relates to various schemes including the scoping work for the North Custody Suite and the purchase and fit of a site at Denby along with a number of minor building schemes, including refurbishments of the Multi-Purpose Hall, Training School roof and Millfield House.

Equipment and Vehicles – Orders have been raised for vehicles and various equipment but as there was a pause in the Vehicles Replacement Programme to review the size and composition of the Fleet the majority of the new purchases will be delivered in 2025/26.

IS Schemes – Major IS Schemes take more than one budget year to implement. The exit from the original provider for the Public Contact Improvement Programme (PCIP) Force Control Room Technology Solution resulted in a negative expense in year, the overall scheme remains ongoing and will take a number of years to complete.

Non-Financial Performance

2024/25 saw a decrease in recorded crime of 5%, recording 84,822 crimes in total for the year, . Outcomes for the same period have remained stable, and positive outcomes have increased and now stand at 17.9%.

Residential Burglary reduced by 22% compared with the previous year, whilst thefts from vehicles decreased by 8% and thefts of vehicles also decreased by 12%. Theft from person saw a decrease of 9% with personal robbery decreasing by 19% were as business robbery saw an increase of 44% (14 additional crimes compared with the previous 12 months). Both types of robbery occur in small numbers across Derbyshire with 46 business robberies and 518 personal robberies being recorded in the past 12 months. Shoplifting has increased by 5% in Derbyshire, although this is an increase, the increase has been gradually reducing since the last financial year.

Behavioural crimes saw a mixed picture, criminal damage decreased by 11%, stalking and harassment decreased by 5% and public disorder increased by 9%. Violence in general saw a 4% decrease, with violence without injury decreasing by 8% and violence with injury seeing a 1% increase. In general, sexual offences increased by 17%, with rape increasing by 4% and other sexual offences increase by 24%.

Domestic Abuse recorded crime, which is a subset of recorded crime as it sits across all crime types, totalled 16,525 crimes for the year, a decrease of 8%, with 1,343 fewer crimes. There were 16,589 Anti-social behaviour incidents in the last 12 months, this was a 11% decrease compared with the previous 12 months. In the last year, personal ASB incidents reduced the most, by 46%.

Safeguarding work has continued to progress. Domestic Abuse, Stalking, Harassment and Honour Based Violence Public Protection Notice's (DASH PPN's) have increased by 2% compared to the previous 12 months. High-Risk DASH cases increased by 34% due to increased training in this area of work. Child PPN's have also increased in the last 12 months by 8%. Vulnerable Adult PPN's saw a declining trend of 9%, compared to the previous 12 months. Whilst these areas may only factor in a small amount of the recorded crime figures, they account for a large amount of the complex demand on the force.

Future Outlook

Savings, Efficiencies and Value for Money

The Constabulary continues to demonstrate good value for money and performs well in national comparators. A review of 'good financial management' arrangements across our services has produced budget reductions year on year (£0.900m in the 2023/24 Budget, a further £0.728m within the year and £1.045m as part of the 2024/25 budget.) The review and release of the savings has been carefully managed to ensure that there is minimal impact on frontline operational policing. The success of the savings plan continues to be critical to achieving a balanced budget and releasing resources to fund areas of new investment and there remains a firm commitment to providing value for money and ensuring an efficient and effective force. We continue to work with BlueLight Commercial to maximise financial and commercial benefits related to procurement, through use of the organisation's commercial expertise, leveraging the purchasing power available across the sector.

Through exploiting the deployment of Office 365 the Force continues to make efficiency, cashable and non-cashable savings by maximising our use of the Microsoft Power Platform. PowerApps and associated automation has enabled the Force to solve a range of business problems without needing to invest in siloed solutions or rely on manual / obsolete processes. The Force is in the process of realising benefits for several Applications.

Savings Programme

A Savings Programme was established in 2023/24 to protect the force's financial future by bridging the projected funding gap whilst identifying funding that can be re-aligned to enable growth in key business areas. This has helped to demonstrate that taxpayers' money is being used efficiently and effectively through the alignment of resources to risk and demand. Despite the success of the Savings Programme in identifying savings, the majority of those delivered to date have had to be utilised to deliver a balanced budget for 2025/26. Further work to identify savings and address the predicted budget deficits in the next three to five years is therefore still required and the predicted financial gap is currently being reassessed given the recent CSR announcement. It is likely that the budget deficits for future years for Derbyshire will be higher than the original predictions estimated, which assessed savings of £8m to £10m being required through the Savings Programme last year, particularly if this is to also to provide additional investment to fund new priorities and tackle new and emerging risks.

A robust approach to strategic financial management is required to achieve financial sustainability, bringing expenditure in line with resources in the medium term. The Savings Programme is based upon the following objectives:

- Review of demand and service provision, ensuring that services are aligned to our force priorities, as high performing as possible and demonstrating good use of resources.
- Engagement with other public sector bodies to strengthen capabilities, foster innovation and promote local partnerships.
- A realistic plan for spending reductions and income generation for which there is evidence-based assurance of delivery to time and funding targets.
- Intelligent use of data to identify how to deliver the highest performance within the available resources.
- Investing in core corporate services which require additional capacity and capability.
- Ensuring that there are appropriate resourced strategies to drive improvement in the areas that will enable transformation e.g., asset management, ICT, procurement etc.

The program of strategic workstreams and reviews to understand demand, remove inefficiencies and reduce costs include the following areas:

The Constabulary continues to demonstrate excellent value for money and performs well in national comparators. The 2024/25 HMICFRS Value for Money profiles reports Derbyshire as being the tenth lowest funded force per head of population.

How does spending compare? (net revenue expenditure per capita) in the financial year ending 31st March 2025

Derbyshire's position is 32nd in the table (exc. Met & City of London Police) for net revenue expenditure per capita for 2024/25 @ £210.43 per member of the population. This means our spend per person in terms of our population is lower than most of our counterparts (the spend ranges from the highest Merseyside with £289.48 per person to Wiltshire at £195.74 per person) and in the lower quartile in our group of Most Similar Forces (MSF).

2025/26 and Beyond

The Police Finance Settlement announced on 17th December 2024 allocated funding to the Home Office for 2025/26, equivalent to a 2.7% decrease in real terms when compared with 2023/24. CSR Phase 2 will seek to fix departmental spending plans for the years ahead with budgets for 2026/27 and 2027/28 expected to be part of the CSR announcement due in Spring 2025. Within the December 2024 Settlement explicit budgetary commentary suggested the government grant for police forces would be increased to support delivery on manifesto promises relating to an additional 13,000 neighbourhood officers and police community support officers, a commitment to increase policing visibility, to improve public perceptions of the police, create safer streets for our communities and to reduce violence against women and girls. The government announced an additional £200m investment nationally for neighbourhood policing which translated to additional grant funding for Derbyshire of up to £2.8m to deliver an increase to the neighbourhood policing workforce.

Derbyshire was previously in receipt of several funding streams and the allocations of formula grant funding represented an increase in cash of £4.8m (3.7%) compared to 2024/25. However, this included £1.0m of funding re-allocated from the existing Police Officer Uplift Grant. The net increase in Formula Grant was therefore only £3.8m (3.0%). The 2025/26 Settlement continues to include ringfenced Police Uplift Grant of £5.0m, a reduction of £1.0m which has been transferred to Core Grant. The Uplift Grant requires a minimum officer establishment at 'Post Uplift' headcount of 2,137 officers for the Force. This ringfenced funding will be paid to PCCs if they have achieved their overall officer maintenance headcount but confirmation of 'check-in' dates and the consequences for not achieving headcount targets are yet to be confirmed.

The Police Funding Settlement also included £3.8 million of funds to compensate for the autumn budget changes to Employer National Insurance Contributions (NIC) which increased rates by 1.2 % to 15% and lowered the threshold to £5,000.

The increase in overall Government Funding for Derbyshire is £9.7m (6.4%), which is lower than the national average, with £6.5m of this growth relating to the increase in the cost of the NICs and the additional costs for the Neighbourhood Policing Uplift. The real net increase in funding is therefore only £3.2m (2.1%) and there is no funding for the continued costs of the September 2024 pay award of 4.75% (most forces budgeted at 2.5%). Derbyshire's share of the grant to cover in-year difference equated to additional funding of £2.3m in 2024/25 and so the loss of grant for the full year equivalent costs for 2025/26 is estimated to be £3.968m. In real terms this means the funding settlement is a reduction of £0.7m for Derbyshire.

The settlement provided a total of up to £17.4 billion for policing in 2025/26, an increase of £0.9 billion when compared with the 2024/25 funding settlement.

The Settlement allocated a number of separate funding streams to forces, Derbyshire's share of each being as follows:

Funding Stream	2024/25 £m	2025/26 £m	Change £m	Change %
Home Office Police Grant	82.6	85.7	3.1	3.7%
EX- DCLG Formula Funding	46.3	48.0	1.7	3.7%
Sub Total - Formula Grant	128.9	133.7	4.8	3.7%
Council Tax Grants	8.7	8.7	0.0	0.0%
Total - General Funding Grants	137.6	142.4	4.8	3.5%
Pension Support Grant	5.9	5.6	-0.3	-5.1%
Officer Maintenance Grant (Ringfenced)	6.0	5.0	-1.0	-16.7%
Additional Recruitment Top Up Grant	1.3	1.4	0.1	7.7%
McCloud Grant	0.4	0.0	-0.4	-100.0%
Sub Total - Other Grants	151.3	154.4	3.2	2.1%
National Insurance Contributions Grant	-	3.8	3.8	100.0%
Neighbourhood Policing Grant (Ringfenced)	-	1.4	1.4	100.0%
Total - All Police Grants	151.3	159.6	8.4	5.6%
In Year Pay Award Grant Sept 24 (4.75% Sept 24)	2.3	0.0	-2.3	-100.0%
Total - All Police Grants (Adjusted for Pay Award)	153.6	159.6	6.1	4.0%

The above allocations of Formula Grant funding represent an increase in cash support of **£4.8m** (3.7%) compared to 2024/25. However, this includes **£1.0m** of funding re-allocated from the Police Officer Uplift Grant. The net increase in Formula Grant is therefore only **£3.8m** (3.0%).

The Settlement continues to include Ringfenced Police Uplift Grant to maintain overall officer establishment at 'Post Uplift' headcount of **2,137** officers. This includes the additional **27** officers recruited during 2023/24. For the purposes of administration of the ringfenced grant funding these additional officers will form part of maintenance headcount targets. The Police Uplift Grant is **£5.0m**, a reduction of **£1.0m** which has been transferred to Core Grant. This ringfenced funding will be paid to PCCs if they have achieved their overall officer maintenance headcount. Confirmation of 'check-in' dates and the loss of any funding for not achieving headcount targets is yet to be confirmed.

The Department for Levelling Up, Housing and Communities (DLUHC) issued a local government finance policy statement for 2025 to 2026 on 28th November 2024. This announced changes to Referendum Principles for most types of authority, including Police & Crime Commissioners. For 2025/26 only, the maximum permitted increase in Band D Council Tax for policing is £14 instead of £10.

Decisions on increases to the Police Precept need to take account of the views of residents and council taxpayers of Derbyshire as well as local and national policing priorities. The Police and Crime Commissioner ran an online public budget consultation which opened towards the end of November 2024 for five weeks, seeking the public's view on an increase to the amount of council tax that local residents pay towards policing in Derbyshire. The consultation saw 2,265 Derbyshire residents participate. More than 180 responses were received from each local authority area. Results from council taxpayers who expressed an opinion showed that 75.4% supported an increase of £12 or more to the policing precept, with 68.5% supporting an increase of £15 or more. Support for an increase was consistent across all demographics monitored.

With a £14 Precept increase, total funding to the Constabulary was set at **£242.918m**.

It is acknowledged by the force that even with a maximum £14 Council Tax increase in 2025/26, a rigorous and structured process for identifying further savings will be required to enable balanced budgets to be set for 2025/26 to 2028/29. This will be addressed through a structured and risk-based Savings Plan, building upon the savings already achieved during 2023/24 and 2024/25. The Savings Plan will help to reduce overheads, deliver continuous improvements, and achieve both cashable and non-cashable savings to help towards achieving a balanced budget over the medium term.

Further information concerning the 2025/26 budget can be found on our website: [Budget and Precept Information | Office of the Derbyshire Police and Crime Commissioner \(derbyshire-pcc.gov.uk\)](https://www.derbyshire-pcc.gov.uk/Budget-and-Precept-Information)

Budget Reduction Measures

The force instigated an in-year savings programme during 2023 that successfully delivered over £0.728m of savings during 2023/24, with further continued savings of £1.046m being delivered in 2024/25, helping to reduce our budget requirement by over £1.774m. Forward budget projections within the MTFP continue to demonstrate the need for savings in future years and therefore the new Savings Programme established during 2024 is a structured and risk-based plan designed to reduce overheads, deliver continuous improvements, and achieve both cashable and non-cashable savings. The new Savings Plan has already proved its worth since it was initially implemented as the budget gap in 2025/26 was exacerbated through the challenging and difficult funding settlement announced which resulted in a significantly bigger budget deficit than predicted. This tested our scenario planning, but the savings identified thus far in the current Savings Programme were able to be utilised to enable a balanced budget to be set for 2025/26.

The continued success of the savings plan will be critical to achieve a balanced budget beyond 2025/26 and the aim to achieve a balanced budget over the MTFP period requires further savings of over £10m over the next five years to help balance the budget gap and provide additional investment to fund new priorities and tackle new and emerging risks. The savings plan was recently subject to an internal audit review, which provided 'substantial assurance' that effective controls were in place to deliver the savings and that the risks associated with the plan were being appropriately managed.

Through these saving measures, the 2024/25 Budget requirement was agreed at **£231.923m**, resulting in an overall funding shortfall to be met from Reserves of **£0.162m**. **This gives a final net budget of £231.761m**

Medium Term Financial Plan

The Medium-Term Financial Plan (MTFP) forecasts future years' budget requirements based upon funding and spending assumptions. The plan is prepared between the Force and the Chief Financial Officer with the Office of Police and Crime Commissioner (OPCC) and is based upon a number of assumptions with different worst, best and most likely case scenarios. These are regularly discussed with the Chief Officers, members of the Senior Leadership Team and the OPCC.

The Forecast prepared as part of the 2025/26 Budget indicated that under all current assumptions the underlying budget deficit would continue to increase over the next five years, creating a **funding gap of over £10m**. Work will take place to review and revise the MTFP in the light of the CSR announcements in Summer 2025.

It is also important to bear in mind that in the two years immediately beyond the current forecasting period (2028/29 and 2029/30), we will continue to incur capital charges as we implement our ambitious plans for developing the force estate, notably Chesterfield Custody Suite and redevelopment of the North Divisional HQ and the planned Accreditation Hub at Force Headquarters.

Our funding assumptions with the MTFP prepared as part of the 2025/26 Budget Process were based upon a 1% annual increase in Government Grant. of £14 pa. **They also assume that a £14 precept increase based upon a Band D property is approved in each of the next 4 years (26/27, 27/28,28/29 and 29/30) and shows the extent of the challenge that remains.**

Medium-Term Forecast 2025/30	2025/26 £m	2026/27 £m	2027/28 £m	2028/29 £m	2029/30 £m
Net Revenue Budget	243.230	254.490	263.454	271.818	279.314
Projected Funding (£14 Precept)	-243.230	-250.625	-258.515	-266.590	-274.855
Budget Deficit	0.000	3.865	4.939	5.228	4.459

It is vital that Derbyshire Constabulary continues to explore opportunities to deliver savings to fund future investment, so that we can maintain appropriate reserve levels and that ongoing enhancements to service levels are self-financed through saving plans.

Pensions

Pension costs are accounted for in accordance with the accounting standard International Accounting Standard (IAS) 19. The objectives of IAS 19 are to ensure that the financial statements: -

- Reflect at fair value the assets and liabilities arising from an employer's retirement benefit obligations.
- Contain related funding and operating costs of providing retirement benefits to employees that are recognised in the accounting period in which the benefits are earned.
- Contain adequate disclosure of the cost of providing retirement benefits.

IAS 19 costs are not, however, chargeable to Council Tax, and the impact is reversed out by replacing the IAS 19 figures with the actual cash payments made to the Pension Fund. The actual payments are shown derived through the Statement of Movement on the General Reserve Balance. The Pensions Liability in the Balance Sheet reflects the underlying long-term commitments to pay retirement benefits.

The impact of the net pension liability on overall reserves amounts to £1,558m in 2024/25 (2023/24 £1,723m). Detailed information on the performance of the Pension Fund is set out in the Core Financial Statements.

For 2024/25 the LGPS valuation has returned a net asset in respect of the funded obligations, this is primarily due to changes in the financial assumptions and an excess return on assets over and above the expected accounting return. The total investment return achieved by the Fund over the accounting period was £13.484m with an investment return of 3.7% compared to a gain in 2023/24 of £30.698m which led to a gain on the balance sheet.

In accordance, with proper accounting practice E7(IFRIC 14), as asset ceiling calculation has been undertaken which shows the net asset cannot be realised. As a result, the net pension asset in the LGPS scheme is reduced by £91.382m leaving a residual liability of £1,558m, £0,194m relating to funded obligations and the remaining £1,364m to unfunded obligations.

Collaboration

(i) East Midlands Police

The five police forces in the East Midlands region have been working together for over a decade in many different areas of operational and non-operational policing.

The five Forces are facing considerable new risks in respect of the changing nature of crime, the breadth of demand on policing services and for some the fact that significant financial challenges still remain. There is a strong belief in the East Midlands that collaboration is not only pragmatic but continues to demonstrate value for money, whilst enhancing the way the police service in the region does business.

Our regional collaboration is underpinned by 5 guiding principles:

- that local policing remains local
- any collaboration helps deliver more efficient and/or effective policing for Derbyshire
- all areas of business are considered
- decisions not to participate in a particular collaboration are reviewed regularly, as circumstances may change
- any cost and/or benefits are shared between participating Forces

Police collaboration in the East Midlands has a number of significant benefits to police officers, staff and residents right across the region:

- Greater resilience.
- Increased capability.
- Reduced bureaucracy.
- Reduced cost.

Derbyshire Police has always engaged actively in a range of collaborative initiatives. It has adopted a prudent approach to collaboration based on a set of collaboration principles agreed by the Police and Crime Commissioner and Chief Constable. This includes the two key principles that: -

1. Derbyshire Constabulary and the Commissioner will ensure we maximise local savings to address our immediate and future financial pressures. We are already very efficient and will focus greater efficiency on delivering savings at a local level prior to entering into collaborative ventures.
2. Any future collaboration will be tested against the priorities of the Constabulary and the objectives and manifesto pledges set by the Commissioner within their Police and Crime Plan. Any current and future collaborative models will be commensurate with risk and not expose Derbyshire to any greater risk or cost than a local solution.

An effective governance and performance framework exists to ensure that the collaborations continue to operate efficiently and effectively and continues to demonstrate value for money.

(ii) Joint Venture and collaboration – Derbyshire Fire and Rescue Service

Derbyshire Constabulary has embraced the benefits brought by closer collaboration with the Fire and Rescue Service. The Force has a joint headquarters building and training centre with Derbyshire Fire and Rescue Service. There was a joint Head of Strategic Assets until December 2023 and there is now a joint Property team. The sharing of estates with Derbyshire Fire and Rescue Service has saved significant costs in refurbishing or rebuilding existing police stations and is captured in the Asset Management Plan. There are four co-locations with further reviews in the future of other opportunities. It also increases the familiarity between emergency personnel, which helps them work better together when needed. Finally, co-location enables better information sharing, which improves the service to the local community.

The Force continues to work closely with the Fire and Rescue Service on procurement, transport and a number of specialist financial advisory services and they consider jointly seeking bids for all contracts where there are joint needs. These arrangements include alignment of waste management, shared photocopying arrangements, joint procurement of a new transport system, Travel and Accommodation system, banking arrangements, insurance arrangements, tax advice, employee reward system, asset management system, electrical works and energy contracts. Further opportunities will continue to be exploited for the benefit of both organisations.

Acknowledgements

The production of the Statement of Accounts would not have been possible without the exceptionally hard work and dedication of colleagues in the Force Finance Department. I would like to express my appreciation to the Finance Team and all colleagues across the Force who have assisted in the production of the Statement of Accounts and for their support throughout the year.

A handwritten signature in black ink that reads "B. Bull". The letter 'B' is written in a cursive style with a loop, followed by a period and the name "Bull".

STATEMENT OF RESPONSIBILITIES FOR THE ACCOUNTS

The Chief Constable's Responsibilities

The Chief Constable is required: -

- to make arrangements for the proper administration of the Derbyshire Constabulary's financial affairs and to secure that one of its officers (Chief Finance Officer) has the responsibility for the administration of these affairs;
- to manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets; and
- to approve the statement of accounts

I approve these Statements of Accounts

Signed

Rachel Swann
Chief Constable

Date: 23rd February 2026

The Chief Finance Officer's Responsibilities

The Chief Finance Officer of Derbyshire Constabulary is responsible for the preparation of the Statement of Accounts for the Chief Constable in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom ("the Code").

In preparing this Statement of Accounts the Chief Finance Officer has: -

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that are reasonable and prudent including assessments of going concern; and
- complied with the local authority code.

The Chief Finance Officer has also: -

- ensured that proper accounting records have been kept which were up to date; and
- taken reasonable steps for the prevention and detection of fraud and other irregularities.

CHIEF FINANCE OFFICER CERTIFICATE

I certify that the Statement of Accounts presents a true and fair view of the financial position of the Chief Constable for Derbyshire as at the 31 March 2025 and of its income and expenditure for the year ended the 31 March 2025.

Signed

Bev Bull
Chief Finance Officer

Date: 23rd February 2026

Independent auditor's report to the Chief Constable for Derbyshire

Report on the audit of the financial statements

Disclaimer of opinion

We were engaged to audit the financial statements of the Chief Constable for Derbyshire (the 'Chief Constable') for the year ended 31 March 2025, which comprise the Comprehensive Income and Expenditure Statement, the Balance Sheet, the Movement in Reserves Statement, the Cash Flow Statement and notes to the financial statements, including material accounting policy information, and include the police pension fund financial statements comprising the Fund Account, Net Assets Statement and notes to the pension fund accounts. The financial reporting framework that has been applied in their preparation is applicable law and the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024-25.

We do not express an opinion on the accompanying financial statements of the Chief Constable. Because of the significance of the matters described in the basis for disclaimer of opinion section of our report, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on these financial statements.

Basis for disclaimer of opinion

The Accounts and Audit (Amendment) Regulations 2024 (the 'Regulations') require the Chief Constable to publish audited financial statements for the year ended 31 March 2025 by 27 February 2026 (the 'backstop date'). The backstop date has been put in law with the purpose of clearing the backlog of historical financial statements.

On 27 February 2025, we issued a disclaimer of opinion on the Chief Constable's financial statements for the year ended 31 March 2024. We were not able to obtain sufficient appropriate audit evidence by 28 February 2025, the previous backstop date, that the financial statements were free from material misstatement. We were therefore unable to obtain sufficient appropriate audit evidence over the corresponding figures or whether there was any consequential effect on the Chief Constable's Comprehensive Income and Expenditure Statement for the year ended 31 March 2025 for the same reason.

As a result of the limitations imposed by the backstop date, we have been unable to obtain sufficient appropriate audit evidence over the Chief Constable's opening balances reported in the financial statements for the year ended 31 March 2025. Consequently, we have been unable to satisfy ourselves over the in-year movements in the Local Government Pension Scheme pension net liability, the Police Pension Scheme liability and property, plant and equipment. This has also resulted in uncertainty over the closing balances of property, plant and equipment of £18.854 million as at 31 March 2025. Similarly, we have not been able to obtain assurance over the Chief Constable's closing reserves balance of £1,541.892 million as at 31 March 2025, also due to the uncertainty over their opening amount.

There remains uncertainty regarding the allocation of the Local Government Pension Scheme (LGPS) pension net liability at 31 March 2025 between the Police and Crime Commissioner and the Chief Constable. This uncertainty does not relate to the Police Pension Scheme and affects reserves and pension liabilities at the Chief Constable.

In addition, our audit identified significant control deficiencies in the Chief Constable's financial accounting and record keeping. The Chief Constable was not able to provide sufficient appropriate audit evidence to support the closing balances of property, plant and equipment and associated disclosures reported in the financial statements as at 31 March 2025.

We have concluded that the possible effect of these matters on the financial statements could be both material and pervasive. We have therefore issued a disclaimer of opinion on the financial statements. This enables the Chief Constable to comply with the requirement of the Regulations to publish the financial statements for the year ended 31 March 2025 by the backstop date.

Other information we are required to report on by exception under the Code of Audit Practice

Because of the significance of the matters described in the basis for disclaimer of opinion section of our report, we have been unable to consider whether the Annual Governance Statement does not comply with the requirements of the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024-25, or is misleading or inconsistent with the information of which we are aware from our audit. We are not required to consider whether

the Annual Governance Statement addresses all risks and controls or that risks are satisfactorily addressed by internal controls.

Opinion on other matters required by the Code of Audit Practice

The Chief Finance Officer is responsible for the other information. The other information comprises the information included in the Statement of Accounts, other than the Chief Constable's financial statements and our auditor's report thereon. Because of the significance of the matters described in the basis for disclaimer of opinion section of our report, we have been unable to form an opinion, whether based on the work undertaken in the course of the audit of the financial statements and our knowledge of the Chief Constable gained through our work in relation to the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources, whether the other information published together with the financial statements in the Statement of Accounts for the financial year for which the financial statements are prepared is consistent with the financial statements.

Matters on which we are required to report by exception

Under the Code of Audit Practice, we are required to report to you if:

- we issue a report in the public interest under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make a written recommendation to the Chief Constable under section 24 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application to the court for a declaration that an item of account is contrary to law under Section 28 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or;
- we issue an advisory notice under Section 29 of the Local Audit and Accountability Act 2014 in the course of, or at the conclusion of the audit; or
- we make an application for judicial review under Section 31 of the Local Audit and Accountability Act 2014, in the course of, or at the conclusion of the audit.

We have nothing to report in respect of the above matters.

Responsibilities of the Chief Constable and the Chief Finance Officer

As explained more fully in the Statement of Responsibilities for the Accounts, the Chief Constable is required to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. That officer is the Chief Finance Officer. The Chief Finance Officer is responsible for the preparation of the Statement of Accounts, which includes the financial statements, in accordance with proper practices as set out in the CIPFA/LASAAC Code of Practice on Local Authority Accounting in the United Kingdom 2024-25, for being satisfied that they give a true and fair view, and for such internal control as the Chief Finance Officer determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Chief Finance Officer is responsible for assessing the Chief Constable's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless they have been informed by the relevant national body of the intention to dissolve the Chief Constable without the transfer of its services to another public sector entity.

Auditor's responsibilities for the audit of the financial statements

Our responsibility is to conduct an audit of the Chief Constable's financial statements in accordance with International Standards on Auditing (UK) and to issue an auditor's report. However, because of the matters described in the basis for disclaimer of opinion section of our report, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion on those financial statements.

We are independent of the Chief Constable in accordance with the ethical requirements that are relevant to our audit of the financial statements in the UK, including the FRC's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Explanation as to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including

fraud. Owing to the inherent limitations of an audit, there is an unavoidable risk that material misstatements in the financial statements may not be detected, even though the audit is properly planned and performed in accordance with the ISAs (UK).

The audit was defective in its ability to detect irregularities, including fraud, on the basis that we were unable to obtain sufficient appropriate audit evidence due to the matters described in the basis for disclaimer of opinion section of our report.

Report on other legal and regulatory requirements – the Chief Constable’s arrangements for securing economy, efficiency and effectiveness in its use of resources

Matter on which we are required to report by exception – the Chief Constable’s arrangements for securing economy, efficiency and effectiveness in its use of resources

Under the Code of Audit Practice, we are required to report to you if, in our opinion, we have not been able to satisfy ourselves that the Chief Constable has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources for the year ended 31 March 2025.

We have nothing to report in respect of the above matter.

Responsibilities of the Chief Constable

The Chief Constable is responsible for putting in place proper arrangements for securing economy, efficiency and effectiveness in its use of resources.

Auditor’s responsibilities for the review of the Chief Constable’s arrangements for securing economy, efficiency and effectiveness in its use of resources

We are required under Section 20(1)(c) of the Local Audit and Accountability Act 2014 to be satisfied that the Chief Constable has made proper arrangements for securing economy, efficiency and effectiveness in its use of resources. We are not required to consider, nor have we considered, whether all aspects of the Chief Constable's arrangements for securing economy, efficiency and effectiveness in its use of resources are operating effectively.

We have undertaken our review in accordance with the Code of Audit Practice, having regard to the guidance issued by the Comptroller and Auditor General in November 2024. This guidance sets out the arrangements that fall within the scope of ‘proper arrangements’. When reporting on these arrangements, the Code of Audit Practice requires auditors to structure their commentary on arrangements under three specified reporting criteria:

- Financial sustainability: how the Chief Constable plans and manages its resources to ensure it can continue to deliver its services;
- Governance: how the Chief Constable ensures that it makes informed decisions and properly manages its risks; and
- Improving economy, efficiency and effectiveness: how the Chief Constable uses information about its costs and performance to improve the way it manages and delivers its services.

We document our understanding of the arrangements the Chief Constable has in place for each of these three specified reporting criteria, gathering sufficient evidence to support our risk assessment and commentary in our Auditor’s Annual Report. In undertaking our work, we consider whether there is evidence to suggest that there are significant weaknesses in arrangements.

Report on other legal and regulatory requirements – Delay in certification of completion of the audit

We cannot formally conclude the audit and issue an audit certificate for the Chief Constable for Derbyshire for the year ended 31 March 2025 in accordance with the requirements of the Local Audit and Accountability Act 2014 and the Code of Audit Practice until we have received confirmation from the National Audit Office that the audit of Whole of Government Accounts is complete for the year ended 31 March 2025. We are satisfied that this work does not have a material effect on the financial statements for the year ended 31 March 2025.

Use of our report

This report is made solely to the Chief Constable, as a body, in accordance with Part 5 of the Local Audit and Accountability Act 2014 and as set out in paragraph 85 of the Statement of Responsibilities of Auditors and Audited Bodies published by Public Sector Audit Appointments Limited. Our audit work has been undertaken so that we might state to the Chief Constable those matters we are required to state to the Chief Constable in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Chief Constable as a body, for our audit work, for this report, or for the opinions we have formed.

for and on behalf of Grant Thornton UK LLP, Local Auditor

Birmingham

25 February 2026

CHIEF CONSTABLE STATEMENT OF ACCOUNTING POLICIES

Accounting Policies

General Principles

These financial statements have been prepared in accordance with the Code of Practice (the Code) on Local Authority Accounting in the United Kingdom issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) and the Accounts and Audit Regulations 2015. The accounting policies contained in the Code apply International Financial Reporting Standards (IFRS) as adapted for the public sector by the International Public Sector Accounting Standards (IPSAS).

The accounts have been prepared on a going concern basis using a historic cost convention, modified to account for the revaluation of certain categories of tangible fixed assets and financial liabilities.

The concept of a going concern assumes that the functions of the Constabulary will continue in operational existence for the foreseeable future. The provisions in the Code (Code of Practice on Local Authority Accounting in The United Kingdom 2024/25) in respect of going concern reporting requirements reflect the economic and statutory environment in which policing services operate. These provisions confirm that, as policing services cannot be created or dissolved without statutory prescription, they must prepare their financial statements on a going concern basis of accounting.

Policing services carry out functions essential to the local community and are themselves revenue-raising bodies (with limits on their revenue-raising powers arising only at the discretion of central government). If a constabulary were in financial difficulty, the prospects are thus that alternative arrangements might be made by central government either for the continuation of the functions it provides or for assistance with the recovery of a deficit over more than one financial year. As a result of this, it would not therefore be appropriate for the financial statements to be provided on anything other than a going concern basis.

The accounts are therefore prepared on a going concern basis, on the assumption that the functions of the PCC and Chief Constable will continue in operational existence for the foreseeable future from the date that the accounts are authorised for issue.

The figures in these accounts are rounded appropriately and this may cause apparent minor arithmetical errors.

Consolidation

The Accounting Policies below also reflect the powers and responsibilities of the Chief Constable as designated by the Police Reform and Social Responsibility Act 2011 and the Home Office Financial Management Code of Practice for the Police Service, England and Wales 2013. The Accounting policies defined here are consistent with local regulations, local agreement and practice as well as the PCC Group policies.

The Accounts cover the 12 months to 31 March 2025.

Cost and income intra-group recognition

All external income is received by the Commissioner (PCC), the PCC holds the Police Fund and all related financial reserves and cash balances. The PCC provides an annual budget to the Chief Constable. All resources consumed at the request of the Chief Constable are funded by the PCC, including the wages of police officers and staff, and no actual cash transactions take place between the two entities.

From an accounting perspective costs and income are recognised in the accounts of the Chief Constable to reflect the financial resources consumed and economic benefit derived in the direction and control of day-to-day policing at the request of the Chief Constable to deliver the Police and Crime Plan. For example, an economic benefit is recognised to reflect the utilisation of PCC owned fixed assets which mirrors depreciation of property.

Any costs and income relating to the Office of the PCC and the commissioning activities of the PCC remain in the Comprehensive Income and Expenditure Statement (CIES) of the PCC.

An intra-group funding adjustment is recognised in the CIES of the accounts of the Chief Constable to represent a recharge from the PCC for the costs and income consumed by the Chief Constable. This is cancelled out with a corresponding entry in the CIES of the PCC when the group accounts are consolidated.

In addition, the accounts for the Chief Constable reflect the employment and post-employment liabilities in accordance with IAS19 which states that liabilities relating to these benefits should follow the cost of employment.

The Chief Constable's total CIES reflects the movement in the Chief Constable's unusable reserves as all other net expenditure is met by a transfer of resources from the PCC and no usable reserves are held by the Chief Constable.

Expenditure Recognition

Activity is accounted for in the year it takes place, not simply when cash payments are made: -

- Supplies are recorded as expenditure when they are consumed.
- Expenses in relation to services received (including services provided by employees) are recorded as expenditure when the services are received rather than when payments are made.
- Short term compensated absences are recognised in the Income and Expenditure Statement in the period in which officers or staff render the service which entitles them to the benefit, not necessarily when they receive the benefit. The cost of leave earned, but not taken at the end of the financial year is recognised in the financial statements of the Chief Constable to the extent that staff are entitled to carry forward a limited amount of leave into the following year.
- Where expenditure has been recognised but cash has not been paid a creditor for the relevant amount is recorded in the accounts.

Exceptional Items

When items of income and expense are material, their nature and amount is disclosed separately, either on the face of the Comprehensive Income and Expenditure Statement or in the notes to the accounts, depending on how significant the items are to an understanding of the Chief Constable's financial performance.

Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Chief Constable's position or financial performance. Where a change is made, it is applied retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

Employee Benefits

The Accounts are prepared in accordance with IAS19 *Employee Benefits*. This is a complex accounting standard, but it is based on a simple principle that:

"An organisation should account for employment and post-employment benefits when employees earn them and the authority is committed to give them, even if the actual giving will be many years into the future".

IAS 19 applies to all types of employee benefits paid including benefits payable during employment, termination benefits and post-employment benefits.

Benefits Payable During Employment

Short-term employee benefits are those due to be settled within 12 months of the year end. They include such benefits as salaries, paid annual leave and paid sick leave, expenses, bonuses and non-monetary benefits (e.g. cars) for current employees and are recognised as an expense for services in the year in which employees render service to the Chief Constable. An accrual is made for the cost of holiday entitlements (or any form of leave, e.g. time off in lieu) earned by employees but not taken before the year end which employees can carry forward into the next financial year. The accrual is charged to Comprehensive Income and Expenditure Statement (as a surplus/deficit on Provision of Services) but then reversed out through the Movement in Reserves Statement to the Short-Term Accumulating Compensated Absences Account so that holiday benefits are charged to revenue in the financial year in which the holiday absence occurs.

Termination Benefits

Termination benefits are amounts payable as a result of a decision by the Chief Constable to terminate an employee's employment before the normal retirement date or an employee's decision to accept voluntary redundancy and are charged on an accruals basis to the Comprehensive Income and Expenditure Statement when the Chief Constable is demonstrably committed to the termination of the employment of an employee or group of employees or making an offer to encourage voluntary redundancy.

Where termination benefits involve the enhancement of pensions, statutory provisions require the general fund balance to be charged with the amount payable by the Group to the pension fund or pensioner in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, appropriations are required to and from the pensions reserve to remove the notional debits and credits for pension enhancement termination benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end.

Post-employment benefits

The main effect of IAS19 in relation to post-employment benefits is the recognition of the net liability and a pensions reserve in the Balance Sheet and entries in the Comprehensive Income and Expenditure Statement for movements in the liability

relating to the employee pension schemes in which the Chief Constable participates (with reconciling entries in the Movement in Reserves Statement back to the true cost of pensions).

IAS19 relies on the recognition of pension's liabilities (being the retirement benefits promised measured on an actuarial basis) and assets (being the Chief Constable's share of investments (if any)).

The Chief Constable participates in two different pension schemes both of which are "defined benefit schemes" as they are both based on employees earning benefits from years of service.

a) Police Officers

This scheme is unfunded. This means it provides pensions and other retirement benefits for police officers based on final salaries but there are no investment assets built up to meet the pensions liabilities.

The funding arrangements for the police officers pension scheme changed on 1 April 2006. Before April 2006 each Police Authority was responsible for paying the pensions of its former officers on a "pay as you go" basis. From April 2006 there is now an employer's contribution instead (currently the equivalent of 31% of pensionable salary) which is charged to the Comprehensive Income and Expenditure Statement.

The Chief Constable is required by legislation to operate a Pension Fund Account and the amounts that must be paid into and paid out of the Pension Fund are specified by regulation. Officer's contributions and the employer's contribution are paid into the pension's account from which pension payments are then made. This will be topped up as necessary by the Home Office if the contributions are insufficient to meet the cost of pension's payments. Any surplus will be recouped by the Home Office. Injury awards and ill health retirements will continue to be paid from the Chief Constable's Comprehensive Income and Expenditure Statement.

The pension fund account does not take account of the obligation to pay pensions and benefits which fall due after the end of the financial year.

b) Police Staff and PCSO's

Police staff and PCSO's, subject to certain qualifying criteria, are eligible to join the Local Government Pension Scheme administered by Derbyshire County Council. It is a defined benefit occupational pension scheme. Pensions and other retirement benefits earned prior to 1 April 2014 are based on final salaries, benefits earned after that date are calculated on earnings accrued in a scheme year. Employers and employees make regular contributions into the fund, which are invested in various types of assets, so that the liabilities are paid for evenly over the employment period. Actuarial valuations of the fund are undertaken every three years to determine the contributions rates needed to meet its liabilities.

Assets in the Local Government Pension scheme are included in the Balance Sheet at their fair value: -

- Quoted and Unquoted Securities – Current Bid Price.
- Unquoted Securities – Professional Estimate.
- Property – Market Value.

For both schemes the liabilities are included in the Balance Sheet on an actuarial basis using the projected unit method (an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc., and projections of projected earnings for current employees). Liabilities are discounted to their value at current prices, using a discount rate. The discount rate used is based on the 'current rate of return on a high-quality corporate bond of equivalent currency and term to the scheme liabilities', which is often referred to as AA Corporate Bond Rate.

The changes in the net pensions' liability are analysed into the following components:

Service cost comprising:

- Current service cost – the increase in liabilities as a result of one additional year of service earned this year – allocated to the Comprehensive Income and Expenditure Statement.
- Past service cost – the increase in liabilities as a result of scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of non-distributed costs.
- Net interest expense – the change during the period in the net defined liability (asset) arising from the passage of time charged to Financing & Investment Income & Expenditure line, taking into account changes in net defined benefit liability (asset) during the period as a result of contribution and benefit payments.

Remeasurement comprising:

- Return on plan assets – excluding amounts included above in net interest, charged to Pensions Reserve as Other Comprehensive Income & Expenditure

- Actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – debited to the Pensions Reserve as Other Comprehensive Income & Expenditure.
- Contributions paid to the pension fund.

The Chief Constable's accounts include the pension costs, assets and liabilities for all staff, including those employed directly by the Commissioner. The scheme assets and liabilities for the two corporation soles are pooled, any pro rata would not be accurate as valuing the fund is based on various assumptions. The effect of including all of the pension figures in the Chief Constable's accounts has no material effect on the accounts.

Discretionary Benefits

The Chief Constable also has restricted powers to make discretionary awards of retirement benefits in the event of early retirements. Any liabilities estimated to arise as a result of an award to any member of staff are accrued in the year of the decision to make the award.

Events after the Balance Sheet Date

These are events that occur between the end of the reporting period and the date when the financial statements are authorised for issue. The Chief Constable will report these in the following way if it is determined that the event has had a material effect on the Chief Constable's financial position: -

- Events which provide evidence of conditions that existed at the end of the reporting period will be adjusted and included within the figures in the accounts.
- Events that are indicative of conditions that arose after the reporting will be reported in the narrative notes to the accounts.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

Non-Current Assets – Vehicles, Plant, Furniture, Equipment and Assets under Construction

Assets that have physical substance and are held for use in the provision of services or for administrative purposes and that are expected to be used during more than one financial year are classified as Vehicles, Plant, Furniture and Equipment.

The following de-minimis limits for capitalisation whereby items above these amounts must be capitalised:

- IT and other Equipment £10,000 (an exception is when certain items which are individually below the de-minimis, but aggregated exceed the limit e.g. IT hardware)
- Vehicles Nil

Recognition and Measurement

Expenditure on the acquisition, creation or enhancement of assets is capitalised on an accrual's basis, provided that it yields benefits and the services it provides for more than one financial year and that the cost of the item can be measured reliably.

Assets are initially measured at cost, comprising the purchase price and any costs attributable to bringing the asset to the location and condition necessary for it to be capable of operating in the manner intended by management.

Assets Under Construction are held in the Balance Sheet at historical cost until completed, whereupon they will be included in the Balance Sheet as operational assets.

Where assets have short useful lives or low values (or both), depreciated historical cost basis is used as a proxy for fair value e.g. vehicles, IT and communications equipment.

Impairments

Assets are assessed at each year end as to whether there is any indication that an asset may be impaired. Where indications exist and any possible differences are estimated to be material, the recoverable amount of the asset is estimated and, where this is less than the carrying amount of the asset, an impairment loss is recognised for the shortfall. Where impairment losses are identified, these are debited to the Comprehensive Income and Expenditure Statement.

Where an impairment loss is reversed subsequently, the reversal is credited to the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

Depreciation

Depreciation is provided for on all Vehicles, Plant, Furniture and Equipment assets on a straight-line basis by the systematic allocation of their depreciable amounts over their useful lives, as advised by a suitable qualified advisor. An exception is made for assets that are not yet available for use (i.e. Assets Under Construction).

Vehicles	Over the life of the asset (3-10 years)
Equipment/furniture	Over the life of the asset (3-20 years)
IT/Communications Equipment	Over the life of the asset (3-10 years) - majority of assets are 5 years.

It is policy not to charge depreciation in the year of acquisition, but a full year's charge is made in the year of disposal. Depreciation is charged to the Comprehensive Income and Expenditure Statement and is reversed out through the Movement in Reserves Statement.

Disposals

When an asset is disposed of or decommissioned, the carrying amount of the asset in the Balance Sheet is written off to the Other Operating Expenditure line in the Comprehensive Income and Expenditure Statement as part of the gain or loss on disposal.

Non-Current Assets - Intangible Assets

Expenditure on non-monetary assets that do not have physical substance but are identifiable and controlled by the Chief Constable as a result of past events (e.g. software licences), are capitalised when it is expected that future economic benefits or service potential will flow from the intangible asset to the Chief Constable.

Expenditure on the development of websites is not capitalised if the website is solely or primarily intended to provide information on policing matters.

Intangible assets are measured at cost. Amounts are only revalued where the fair value of the assets held can be determined by reference to an active market. In practice, no intangible asset held meets this criterion, and they are therefore carried at amortised cost. The depreciable amount of an intangible asset is amortised to the Comprehensive Income and Expenditure Statement over its useful life. Amortisation, as with depreciation, commences in the financial year following that in which they are received. Amortisation is not permitted to have any impact on the General Reserve Balance; it is therefore reversed through the Movement in Reserves Statement and posted to the Capital Adjustment Account.

Charges to Revenue for Non-Current Assets

The Comprehensive Income and Expenditure Statement is debited with the following amounts to record the cost of holding non-current assets during the year: -

- Depreciation attributable to the assets used.
- Amortisation of intangible fixed assets.

The Chief Constable is not required to raise council tax to cover depreciation or amortisations.

Leases

Initial application of IFRS 16 in 2024/25

IFRS 16 Leases as adapted and interpreted for the public sector by HM Treasury was applied to these financial statements with an initial application date of 1 April 2024. IFRS 16 replaced IAS 17 Leases, IFRIC 4 determining whether an arrangement contains a lease and other interpretations. Upon initial application, the provisions of IFRS 16 were only applied to existing contracts where they were previously deemed to be a lease or contain a lease under IAS 17 and IFRIC 4. Where existing contracts were previously assessed not to be or contain a lease, these assessments were not revisited.

The Group as lessee

For leases that had been classified as operating leases and therefore charged to expenses rather than recognised on the Balance Sheet, a lease liability was established on 1 April 2024 equal to the present value of future lease payments discounted using the PWLB borrowing rate. A right of use asset was created equal to the lease liability and adjusted for prepaid and accrued lease payments and deferred lease incentives recognised in the CIES immediately prior to initial application. Hindsight was used in determining the lease term where lease arrangements contained options for extension or earlier termination. No adjustments were made on initial application in respect of leases with a remaining term of 12 months or less from 1 April 2024 or for leases where the underlying assets had a value below £10,000. No adjustments were made in respect of leases previously classified as finance leases.

The Group as lessor

Leases of owned assets where the Authority was lessor were unaffected by initial application of IFRS 16.

Leases Accounting Policy

A lease is a contract or part of a contract that conveys the right to use an asset for a period in exchange for consideration. An adaptation of the relevant accounting standard by HM Treasury for the public sector means that this includes lease-like arrangements with other public sector entities that do not take the legal form of a contract. It also includes peppercorn leases where consideration paid is nil or nominal (significantly below market value) but in all other respects meet the definition of a lease. The term of the lease is determined using the lease term with reference to the non-cancellable period and any options to extend or terminate the lease which is reasonably certain to be exercised.

The Group as a lessee

Recognition and initial measurement

At the commencement date of the lease, being when the asset is made available for use, we recognise a right of use asset and a lease liability. The right of use asset is recognised at cost comprising the lease liability, any lease payments made before or at commencement, any direct costs incurred by the lessee, less any cash lease incentives received. It also includes any estimate of costs to be incurred restoring the site or underlying asset on completion of the lease term (dilatations). The lease liability is initially measured at the present value of future lease payments discounted at the interest rate implicit in the lease. Lease payments include fixed lease payments, variable lease payments dependent on an index or rate and amounts payable under residual value guarantees. It also includes amounts payable for purchase options and termination penalties where these options are reasonably certain to be exercised. Where an implicit rate cannot be readily determined, the PWLB annuity rate is applied that relates to the length of the lease term. We do not apply the above recognition requirements to leases with a term of 12 months or less or to leases where the value of the underlying asset is below £10,000, excluding any irrecoverable VAT. Lease payments associated with these leases are expensed on a straight-line basis over the lease term or other systematic basis. Irrecoverable VAT on lease payments is expensed as it falls due.

Subsequent measurement

As required by a HM Treasury interpretation of the accounting standard for the public sector, we employ a revaluation model for subsequent measurement of right of use assets, unless the cost model is considered to be an appropriate proxy for current value in existing use or fair value, in line with the accounting policy for owned assets. Where consideration exchanged is identified as significantly below market value, the cost model is not considered to be an appropriate proxy for the value of the right of use asset. Where land and buildings assets are revalued, current values in existing use are determined as follows:

- Land and non-specialised buildings – market value for existing use.
- Specialised buildings – depreciated replacement cost

Leased plant and machinery and furniture and fittings are shorter-term leases and so the cost model is applied, and these are measured at depreciated historic cost. We subsequently measure the lease liability by increasing the carrying amount for interest arising which is also charged to expenditure as a finance cost and reducing the carrying amount for lease payments made. The liability is also remeasured for changes in assessments impacting the lease term, lease modifications or to reflect actual changes in lease payments. Such remeasurements are also reflected in the cost of the right of use asset. Where there is a change in the lease term or option to purchase the underlying asset, an updated discount rate is applied to the remaining lease payments. Dismantling, removal and restoration costs will not apply to all leases. If a lease has 30 years or more to run, we will not be including these costs. For leases where they are relevant, they will not necessarily be specified in the lease but can be implicit. Relevant leases will be categorised, the costs will be calculated using a blended rate and floor area. For more specific complexities a bespoke approach will be applied.

Depreciation

The depreciation of right of use assets is based on the lesser of the lease term and the useful life of the asset, unless we expect to acquire the asset at the end of the lease term in which case the assets are depreciated in the same manner as owned assets in line with IFRS 16 Leases.

Revaluation gains/losses

Revaluation gains are recognised in the revaluation reserve, except where, and to the extent that, they reverse a revaluation decrease that has previously been recognised in operating expenses, in which case they are recognised in operating expenditure. Revaluation losses are charged to the revaluation reserve to the extent that there is an available balance for the asset concerned and thereafter are charged to operating expenses. Gains and losses recognised in the revaluation reserve are reported in the Statement of Comprehensive Income as an item of 'other comprehensive income'.

Impairments

Impairments that arise from a clear consumption of economic benefits or of service potential in the asset are charged to operating expenses. A compensating transfer is made from the revaluation reserve to the income and expenditure reserve of an amount equal to the lower of the impairment charged to operating expenses and the balance in the revaluation reserve attributable to that asset before the impairment. An impairment that arises from a clear consumption of economic benefit or of service potential is reversed when, and to the extent that, the circumstances that gave rise to the loss is reversed. Reversals are recognised in operating expenditure to the extent that the asset is restored to the carrying amount it would have had if the impairment had never been recognised. Any remaining reversal is recognised in the revaluation reserve. Where, at the time of the original impairment, a transfer was made from the revaluation reserve to the income and expenditure reserve, an amount is transferred back to the revaluation reserve when the impairment reversal is recognised. Other impairments are treated as revaluation losses. Reversals of 'other impairments' are treated as revaluation gains.

The Group as a lessor

We assess each of our leases and classify them as either a finance lease or an operating lease. Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

Finance leases

Amounts due from lessees under finance leases are recorded as receivables at the amount of the net investment in the leases. Finance lease income is allocated to accounting periods to reflect a constant periodic rate of return on the net investment outstanding in respect of the leases.

Operating leases

Income from operating leases is recognised on a straight-line basis or another systematic basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised as an expense on a straight-line basis over the lease term.

Overheads and Support Services

The costs of overheads and support services are charged to the Comprehensive Income and Expenditure Statement in accordance with the authority's arrangements for accountability and financial performance.

Provisions, Contingent Liabilities and Contingent Assets

Provisions – these are required for liabilities that have been incurred but are of uncertain timing or amount. There are three criteria:

- The Chief Constable has a present obligation (legal or constructive) as a result of a past event.
- It is more likely than not that money will be needed to settle the obligation.
- A reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the Comprehensive Income and Expenditure Statement in the year that the Chief Constable becomes aware of the obligation and are measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation, taking into account relevant risks and uncertainties.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year – where it becomes less than probable that a transfer of economic benefits will now be required (or a lower settlement than anticipated is made), the provision is reversed and credited back to the Comprehensive Income and Expenditure Statement.

Where some or all of the payment required to settle a provision is expected to be met by another party (e.g. from an insurance claim), the income is only recognised as income if it is virtually certain that reimbursement will be received when the obligation is settled.

Provisions contained within the Balance Sheet are split between current liabilities (those which are estimated to be settled within the next 12 months) and non-current liabilities (those which are estimated to be settled in a period greater than 12 months).

Contingent Liabilities – this arises where an event has taken place that gives the Chief Constable a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Chief Constable. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required, or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but disclosed in a note to the accounts.

Contingent Asset – this arises where an event has taken place that gives the Chief Constable a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the Chief Constable.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts where it is probable that there will be an inflow of economic benefits or service potential.

Reserves

Unusable Reserves - certain reserves/accounts are kept to manage the accounting processes for non-current assets (Capital Adjustment Account and Revaluation Reserve), retirement and employee benefits (Pensions Reserve, Short-term Accumulating Compensated Absences Account). These do not represent usable resources for the Chief Constable.

Value Added Tax (VAT)

The Chief Constable does not submit a VAT return as the Commissioner submits a single VAT return on behalf of the Group. Expenditure in the Chief Constable's Income and Expenditure Statement excludes any amounts relating to VAT as all VAT is remitted to/from HM Revenue and Customs.

Jointly Controlled Operations

Jointly controlled operations are activities undertaken in conjunction with other venturers that involve the use of the assets and resources of the venturers rather than the establishment of a separate entity. The Balance Sheet of the Group recognises the assets that it controls and the liabilities that it incurs. The Chief Constable Accounts include Derbyshire's share of running these operations as part of the Income and Expenditure Statement.

Accounting standards that have been issued but not yet been adopted

The Chief Constable shall disclose information relating to the impact of an accounting change that will be required by a new standard that has been issued in 2024/25 but not yet adopted. These are detailed below.

- Classification of Liabilities as Current or Non-current (Amendments to IAS 1) issued in January 2020
- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16) issued in September 2022
- Non-current Liabilities with Covenants (Amendments to IAS 1) issued in October 2022
- International Tax Reform: Pillar Two Model Rules (Amendments to IAS 12) issued in May 2023
- Supplier Finance arrangements (Amendments to IAS 7 and IFRS 7) issued in May 2023

The impact of these standards on the financial statements of the Chief Constable is either not applicable or not expected to be material.

Changes in Accounting Estimates

Significant estimates and judgements in applying Accounting Policies

In applying the accounting policies set out above, the Chief Constable has had to make certain judgements about complex transactions or those involving uncertainty about future events. There are no significant judgements in the 2024/25 Statement of Accounts.

Assumptions Made about the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures that are based on assumptions made by the Chief Constable about the future or that are otherwise uncertain. Estimates are made to take into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

No new areas of estimation have been identified for this financial year.

The items in the Chief Constable's Balance Sheet as at the 31 March 2025 for which there is a significant risk of material adjustment in the forthcoming financial year are as follows:

Uncertainties	Effect if Actual Results differ from Assumptions
Pensions Liability	
Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Chief Constable with expert advice about the assumptions to be applied. For both the Police Officer and Police Staff schemes full data on individual scheme members is collected only once every 3 years. In the intervening period, the actuaries are required to estimate relevant changes in the membership profile.	The effects on the net pensions liability of changes in individual assumptions can be measured. For instance, for the largest scheme, the Police Pension scheme, it is estimated that a 0.5% reduction in the discount rate's excess over pension increases would result in a decrease in the pensions liability of 7.5% (£115m). If pension increases were to be 0.5% higher per year this would increase the liability by 7.5% £113m. However, the assumptions interact in complex ways. For example, during 2024/25 the Police Pension Scheme liability increased by £0.6m as a result of experience changes and decreased by £198.6m as a result of the updating of actuarial assumptions for financial reasons (In 2023/24 the equivalent increased by £20.7m and decreased by £36.0m respectively). Experience changes are those that arise from specific occurrences relating to scheme membership during the year. Recent reviews of public sector pensions have led to changes in benefits payable, employee contribution rates and retirement ages. These will have an impact on the level of future liabilities. As from 1 April 2014 for Police Staff and April 2015 for Police Officers, scheme members now accrue benefit entitlements based on their career-average salaries instead of on their final salary at the point of retirement.

COMPREHENSIVE INCOME AND EXPENDITURE STATEMENT FOR THE CHIEF CONSTABLE

This statement shows the accounting cost in the year of the resources consumed by the Chief Constable in delivering the Police and Crime plan for Derbyshire. It is prepared using generally accepted accounting principles. In practice all the respective costs and income are paid for/received by the Commissioner (PCC) other than those reversed through the Movement in Reserves Statement. The CIES includes the intra-group funding adjustment from the PCC. This is cancelled out with a corresponding entry in the CIES of the PCC when the Group accounts are consolidated.

BALANCE SHEET FOR THE CHIEF CONSTABLE

The balance sheet shows the value of the Chief Constables assets and liabilities at the balance sheet date. The net assets or liabilities are matched by the Chief Constable's reserves. The Chief Constable only holds unusable reserves, these are not able to be used to provide services. This category of reserves includes reserves that hold unrealised gains and losses (for example the revaluation reserve) and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'

CASHFLOW OF THE CHIEF CONSTABLE

This statement does not show any cash-flows for the year ending 31 March as all payments were made from the Police Fund which is held by the Commissioner and similarly all income and funding is received by the Commissioner during the year. The financial consequences of the operational activities undertaken by the Chief Constable can be seen in the Comprehensive Income and Expenditure Statement.

31-Mar-24 £'000		31-Mar-25 £'000

0	Cash and Cash Equivalents at the End of the Reporting Period	0

The Cashflow Statement has been presented using the Indirect Method.

Notes to the Financial Statements for the Chief Constable

Note 1 Derbyshire Police Group

The Accounts reflect the second stage of the reforms within the Police Reform and Social Responsibility Act 2011, which were introduced in April 2014. The Commissioner is responsible for the finances of the whole Group, and controls all land and buildings, liabilities and reserves. The Commissioner receives all income and funding and makes all the payments for the Group from the Police Fund. In turn the Chief Constable fulfils their functions under the Act within an annual budget (set by the Commissioner in consultation with the Chief Constable). The main changes to the Accounts from 1 April 2014 are

- All employees (Police officers and staff) except for the staff of the Commissioner come under Chief Constable
- Long term Assets other than land & buildings and Jointly controlled assets come under the Chief Constable

Note 2 Expenditure and Funding Analysis

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants and precepts) by authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting principles. It also shows how this expenditure is allocated for decision making purposes. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

(1) Details of adjustments are shown in Note 2 of the Accounts.

(2) Income and Expenditure recognised in accordance with generally accepted accounting practices can be seen in the Comprehensive Income and Expenditure Statement on page 30

The Expenditure and Funding Analysis above takes net expenditure that is funded from resources and reconciles it to the Comprehensive Income and Expenditure Statement (CIES page 30). The first column is blank because the Chief Constable holds no reserves. A summary of the Adjustment between the Funding and Accounting basis is shown in the Expenditure and Funding Analysis, a breakdown of these adjustments is shown below

2023/24 - Adjustments to General Reserve To add Expenditure or Income not Chargeable to Taxation and Remove items which are only chargeable under Statute	Adjustments for Capital Purposes 2023/24 £'000	Net Change for the Pensions Adjustments 2023/24 £'000	Other Differences 2023/24 £'000	Total Adjustments 2023/24 £'000

Adjustments for Capital Funding and Expenditure Purposes

Net Cost of Services - Adjustments to the General Reserve to meet the requirements of generally accepted accounting practices, this column adds in depreciation relating to Chief Constable assets to the Net Cost of Services line. It is also adjusted for Capital Expenditure funded by PCC intra-group funding.

Other Operating Expenditure – Adjusts for capital disposals with a transfer of income on disposal of assets and the amounts to be written off for those assets.

Net Change for the Pension Adjustments

Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income.

Net Cost of Services - this represents the removal of the employer pension contributions made by the authority as permitted by statute and the replacement with the current services costs and past service costs.

Financing and Investment Income and Expenditure – The net interest on the defined benefit liability is charged to the CIES.

Taxation and Non-Specific Grant Income and Expenditure – Pension Grant received from the Home Office is credited to the CIES.

Other Differences

This is generally the movement of income and expenditure to the right heading in the CIES (Corporate and Democratic Core for the Chief Constable and Intra-group revenue funding).

Also, the Net Cost of Services includes an adjustment for compensated absences earned but not taken in the year e.g. annual leave, flexi leave and time off in lieu entitlement.

Note 3 Expenditure and Income Analysed by Nature

This note provides an alternative breakdown of the cost of services based on how expenditure is allocated for decision making purposes. It is intended to aid the reader in understanding where the money is spent and in making comparisons between Forces in terms of the type of expenditure incurred.

It should be noted that this analysis includes some items within cost of services that are not required to be charged against the general fund for council tax purposes.

Chief Constable 2023/24 £'000	Financial Resources of the Commissioner consumed at the request of the Chief Constable	Chief Constable 2024/25 £'000
104,357	Police Pay & Allowances	111,027
70,528	Police Staff Pay & Allowances	75,835
2,228	Other Employee Expenses	1,816
14,890	Police Pensions (Current Cost) -see note 10	15,790
14,018	Premises	12,498
6,228	Transport	6,348
24,673	Supplies & Services	28,986
10,973	Agency & Contracted Services	11,188
5,969	Depreciation & Cost of using Commissioner's Property	6,971
170	Revenue Expenditure Funded from Capital under Statute	8
(30)	Non Distributed Costs	-
254,004	Expenditure	270,467
(48,266)	Income from fees/charges and Special Government Grant	(56,799)
205,738	Net Cost of Policing Services	213,668

In 2024/25 the Police and Crime Commissioner increased the Band D council tax by £13 for Derbyshire households. This increase in funding was primarily used to continue to increase the number of police officers and to direct additional investment and resources to key priority areas.

The force successfully maintained its Uplift target and at 31st March 2025 it was employing 2,137 police officers, meaning it had maintained the 283 additional officers expected through the Home Office's original Uplift Programme, plus a further 27 now part of the Uplift Target from 2024/25. These additional 27 officers were added to the uplift target in following the Constabulary's successful additional recruitments as part of a re-allocation mechanism implemented to address shortfalls in recruitment elsewhere in the country in 2023/24

Within the Expenditure for 2024/25 is an additional contribution to the Insurance Provision of £0.210m and a one-off cost of £0.243m to exit a leased non-operational building (Cardinal Square), early as part of the Savings Programme, both of which may be considered outside of the day-to-day costs of policing Derbyshire. Exiting the rental premises early allows the Constabulary to make future revenue savings in terms of the lease costs and all the associated running costs. Officers and staff displaced from this non-operational building have been accommodated in other Derbyshire Constabulary and partnership locations so there has been no adverse impact from this decision on frontline operational policing and communities.

Note 4 Leases

The adoption of IFRS 16 is a change in accounting policy for the 2024/25 financial statements. The previous accounting standard was IAS 17.

The main impact of the new requirements is that for arrangements previously accounted for as operating leases (i.e without recognising the leased property as an asset and future rents as liability) a right of use (ROU) asset and a lease liability are to be brought onto the balance sheet at 1st April 2024. Leases for items of low value (£10,000 or less) and lease's that expire on or before 31st March 2025 are exempt from the new arrangements. IFRS 16 has been applied retrospectively, but with the cumulative effect recognised at 1st April 2024. This means that ROU assets and lease liabilities have been calculated as if IFRS 16 had always applied but recognised in 2024/25 and not by adjusting prior year figures.

However, some practical expedients have been applied as required or permitted by the Code:

- Lease liabilities are measured at the present value of the remaining lease payments at 1st April 2024, discounted by the incremental borrowing rate at that date
- ROU assets are measured at the amount of lease liability, adjusted for any prepaid or accrued lease payments that were in the balance sheet on 31st March 2024 – any initial direct costs have been excluded
- All leases were assessed at 31st March 2024

Movement of Right-of-use assets

This table shows the change in the value of the right-to-use assets held under lease

Movement Right of Use Assets	Total £'000
Cost / Valuation	
At 1 April 2024	86
Additions	-
At 31 March 2025	86
Accumulated Depreciation	
At 1 April 2024	-
2024/25 Depreciation Charge	54
At 31 March 2025	54
Net Book Value	
At 31 March 2024	-
At 31 March 2025	32
Movement in Year	32

Chief Constable as Lessee - Right of Use Assets

The Chief Constable's lease contracts comprise of a vehicle lease and a photocopier lease which are individually immaterial.

Maturity analysis of lease liability

The lease liabilities are due to be settled over the following time bands

	31 March 2025 £000
Payable in 2025/26	28
Payable within 1 to 5 years	-
More than 5 years	-
Total	28

Authority as Lessor – Operating Leases

The Commissioner acts as lessor for a number of offices and rent received for these properties in 2024/25 was £19,431 (£15,619 in 2023/24). A further £95,424 was received for mast rental in 2024/25 (£200,840 in 2023/24).

Note 5 Officers Remuneration

Senior Officer Payments

The table below provides disclosure of the remuneration of Senior Officers and relevant Police Officers..

Remuneration is all amounts paid to or receivable by a person and includes sums due by way of expenses allowance (so far as those sums are chargeable to United Kingdom income tax), and the estimated money value of any other benefits received by an employee otherwise than in cash.

Notes 2023/24

- As the total remuneration for 2023/24 has exceeded £150k the regulations require that Ms R Swann be named.
- As the total remuneration for 2023/24 has exceeded £150k the regulations require that Mr S Blatchly be named.
- As the total remuneration for 2023/24 has exceeded £150k the regulations require that Mr P Gibson be named.
- The Deputy Chief Constable Collaboration left on 31/03/2024
- As the total remuneration for 2023/24 has exceeded £150k the regulations require that Mr J Abdy be named.
- As the total remuneration for 2023/24 has exceeded £150k the regulations require that Ms M Shooter be named.

Notes 2024/25

- As the total remuneration for 2024/25 has exceeded £150k the regulations require that Ms R Swann be named.
- The Chief Constable retired from the Force on 06/10/2024 and returned on 08/11/2024 through the Retire and Rehire Policy for Police Officers.
- As the total remuneration for 2024/25 has exceeded £150k the regulations require that Mr S Blatchly be named.
- The Deputy Chief Constable Collaboration left on 31/03/2024.
- The Assistant Chief Constable Collaboration replaced the Deputy Chief Constable Collaboration and was appointed on 22/02/2024.
- As the total remuneration for 2024/25 has exceeded £150k the regulations require that Mr J Abdy be named.
- As the total remuneration for 2024/25 has exceeded £150k the regulations require that Ms M Shooter be named.

Officers Remuneration over £50,000

The disclosure below details salary of Police Staff and Senior Police Officers (over and above the rank of Superintendent) receiving more than £50,000 remuneration for the year (excluding employer's pension contributions). This excludes the officers shown in the above table.

Remuneration Band	No. Of Employees 2023/24	No. Of Employees 2024/25
£50,000 - £54,999	45	60
£55,000 - £59,999	29	54
£60,000 - £64,999	15	21
£65,000 - £69,999	9	11
£70,000 - £74,999	7	6
£75,000 - £79,999	2	7
£80,000 - £84,999	2	2
£85,000 - £89,999	2	1
£90,000 - £94,999	3	1
£95,000 - £99,999	1	6
£100,000-£104,999	3	1
£105,000 -£109,999	-	1
£110,000 - £114,999	1	2
£115,000-£119,999	-	0
£120,000 - £124,999	2	1
£125,000-£129,999	-	2
TOTAL	121	176

Exit Packages

The total cost of exit packages in 2024/25 is £47,772.05.

2023/24				Exit packages cost band (including special payments)	2024/25			
Number of compulsory redundancies	Number of other departures agreed	Total Number of Exit Packages Agreed	Total cost of exit packages in each band £		Number of compulsory redundancies	Number of other departures agreed	Total Number of Exit Packages Agreed	Total cost of exit packages in each band £

Note 6 External Audit Fees

Fees in relation to external audit for the Chief Constable are as follows: -

2023/24 £'000	External Audit Fees	2024/25 £'000
50	Scale Fees Payable	56
(5)	Fees payable for audit of previous years	-
45	Total fees Chief Constable	56

Note 7 Grant Income

In 2024/25 £7,014 grant (£6,885 in 2023/24) was received from the Department of Levelling Up, Housing and Communities (DLUHC) following the Redmond review, this was to support increased audit fees driven by new requirements on auditors.

Note 8 Jointly Controlled Operations

East Midlands Jointly Controlled Operations

Jointly Controlled Operations (JCO) or Collaborations with other East Midlands Forces are used to deliver services within the Force. The share of cost to Derbyshire is different depending on the number of Forces partaking in the JCO.

The following table show the accounts for all the JCO'S and the balances attributable to Derbyshire.

2023/24		Comprehensive Income and Expenditure Statement	2024/25	
Jointly Controlled Operations £'000	Derbyshire Police £'000		Jointly Controlled Operations £'000	Derbyshire Police £'000
39,731	9,150	Employees' Expenses	45,204	10,403
839	183	Premises	563	122
990	218	Transport	948	209
4,221	1,012	Supplies and Services	5,079	1,236
4,458	1,007	Agency and Contracted Services	4,750	1,072
1,200	262	Capital Charges	1,251	273
(1,166)	(254)	Revaluation (Gains)/Losses	-	-
50,273	11,578	Gross Operating Expenditure	57,795	13,315
(1,173)	(272)	Other Income	(2,287)	(517)
(6)	(1)	Profit/(Loss) on Disposal of Fixed Assets	6	1
49,094	11,305	Net Operating Expenditure Financed by: -	55,514	12,799
(44,137)	(10,247)	Contributions from Partners	(48,516)	(11,279)
(4,774)	(1,040)	External Grants	(7,331)	(1,598)
(252)	(55)	Capital Grants & Contributions	(389)	(84)
(69)	(37)	(Surplus) / Deficit for the year	(722)	(162)

The JCO's to which the Commissioner contributes cover a number of operational and support areas. Details of these are set out in the table below (Where reference is made to 'all 5 forces' this means Derbyshire, Leicestershire, Lincolnshire, Northamptonshire and Nottinghamshire)

Jointly Controlled Operation	Activity	Participants	Commenced	Derbys %	2024/25 Gross Exp £'000	2024/25 Total Income £'000	(Surplus) / Deficit £'000
EM SOU – SOC (incl. EMSOU TSU)	Specialist Operations	All 5 forces	Jan 2003	21.8	8,265	(8,393)	(128)
EMSOU Major Crime – Command Team	Co-ordination of Major Crime investigations	All 5 forces	Sept 2011	21.8	195	(195)	(-)
EMSOU Forensics	Forensic analysis and identification	All 5 forces	April 2014	21.8	2,762	(2,790)	(28)
EM Legal Services	Specialist Legal advice and services, incl Insurance	All 5 forces	April 2014	21.8	564	(562)	2
EM CHRS – Learning & Development	Co-ordination of regional training provision	Derbys, Leics, Northants, Notts	April 2012	25.11	415	(414)	1
HR Service Centre	Transactional HR services	Derbys, Leics	June 2014	50.0	1,114	(1,123)	(9)
Emergency Services Network (ESN)	Communications Network	All 5 forces	July 2017	22.6	-	(-)	(-)
Totals					13,315	(13,477)	(162)

EMSOU TSU was incorporated into EMSOU-SOC accounts from April 2018 but it actually commenced operations in July 2011.

In addition to the above, Derbyshire Police has a joint arrangement with Leicestershire Police for the provision of Payroll and Risk Management software.

Note 9 Related Party Transactions

The Chief Constable is required to disclose all material transactions with related parties – bodies or individuals that have the potential to control or influence the Chief Constable or to be controlled or influenced by the Chief Constable.

Disclosure of these transactions allows readers to assess the extent to which the Chief Constable might have been constrained in their ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Chief Constable.

Central Government

Central Government has significant influence over the general operations of the Chief Constable – it is responsible for providing the statutory framework within which the Chief Constable operates.

Officers

Certain senior officers might be in a position to influence significantly the policies, the Chief Constable and the Chief Finance Officer were directors of the Derbyshire Constabulary Sports Club during 2024/25 but this arrangement has now ceased, no further related party transactions have been identified following the consultation with relevant officers.

Commissioner

The Commissioner holds the Chief Constable to account, a scheme of consent is in place that gives clarity to how the two organisations operate and are governed. The Chief Constable fulfils their function within a budget set by the Commissioner.

Other Public Bodies

The Chief Constable participates in Jointly Controlled Operations with other East Midlands Forces (see Note 8) and partnership arrangements with Derbyshire Fire and Rescue Service.

Note 10 Accounting for Pension Costs (a)

As part of the terms and conditions of employment of its officers and other employees, the Chief Constable offers post-employment (retirement) benefits. Although these benefits will not actually be payable until employees retire, the Chief Constable has a current commitment to make future payments which need to be disclosed at the time that employees earn their future entitlement.

The Chief Constable participates in two post-employment schemes: -

The Local Government Pension Scheme (LGPS) for police staff is a defined benefit scheme. It is a funded scheme which is administered by Derbyshire County Council. Pensions and other retirement benefits are paid from the fund. Employers and employees make regular contributions into the fund so that the liabilities are paid for evenly over the employment period.

Actuarial valuations of the fund are undertaken every three years to determine the contribution rates needed to meet its liabilities. A valuation was undertaken as at the 31 March 2022 which set contribution rates for the 3-year period commencing on the 1 April 2023.

The 2024/25 total employer contribution of £11.297m consisted only of 'regular' contributions as there were no additional one-off contributions towards early retirements. This is in line with pension costs necessary to be provided in accordance with IAS19 "Employee Benefits". Prior to 2024/25 the regular contributions consist of 2 elements:

- a 'future service rate' to meet the estimated cost of benefits that will be earned in future (set at 13.9% of pensionable pay at the latest valuation).
- a 'deficit recovery repayment' lump sum to enable the difference between the value of benefits earned to date and the assets that have been built up to be recovered over a specified period (NIL paid in 2024/25).

In total these 2 elements equated to a contribution rate of 13.9% of pensionable pay for 2024/25.

In addition to contributions to the Pension fund the Chief Constable is responsible for compensation payments in the form of "added years" awarded on premature retirement. In 2024/25 these amounted to £0.026m.

Further information can be found in the County Council's Pension Fund Statement of Accounts, which is available upon request from Derbyshire County Council.

The structure of benefits payable to members under the LGPS was reformed from April 2014 as part of a policy to make all pension schemes across the public sector more affordable. In summary, retirements benefits earned from service after this date became based on 'career average' salaries rather than final salaries. For Police Officers (see below) a similar change was implemented from April 2015.

The implementation of all the new career-average schemes across the public sector was subsequently found to be discriminatory – on grounds of age – in a series of court rulings. This was because members nearer to retirement were treated more favourably than younger members with less service. Following a consultation process HM Treasury has determined a mechanism and process for removing the discrimination, which is referred to collectively as the 'Pensions Remedy'.

This process began in October 2023, when all the technical details of implementation have been worked out and will mean that individual members will have a choice regarding the benefits they receive for service between the 1 April 2015 and 31 March 2022. More details can be found under the 'McCloud Judgement' section below.

The Police Pension Scheme for police officers is an unfunded single employer defined benefit scheme. This means it provides pensions and other retirement benefits for police officers but there are no investment assets built up to meet the pensions liabilities. Up to and including 2023/24 three schemes were in operation:

- The 1987 Police Pension Scheme - based on officers' final salaries and a maximum pensionable service of 30 years.
- The 2006 Police Pension Scheme (effective for police officers commencing from April 2006 onwards) - based on officers' final salaries and a maximum pensionable service of 35 years.
- The 2015 Police Pension Scheme – based on 'career average' salaries with no maximum pensionable service but a Normal Pension Age of 60.

However, during 2024/25 only the 2015 Police Pension Scheme was in operation. The other 2 schemes were fully closed to all members on 31 March 2022.

All new officers and existing officers not subject to protection arrangements are now members of the 2015 scheme. As with the Local Government Pension Scheme, because the changes to the Police Officer pension scheme from 2015 involved transitional protections for older members close to retirement age they come within the ambit of the McCloud Judgement / Pension Remedy (see page 44).

The constabulary is required to operate a separate Pensions Account for all transactions related to the Police Pension Scheme. Officers' contributions and an employer's contribution are paid into the pensions account from which pension payments are made. The account is topped up each year by the Home Office if the contributions in that year are insufficient to meet the cost of pensions paid. Any surplus is repaid to the Home Office.

For 2024/25 a Top up grant of £28.923m was received from the Home Office to supplement the employer's contributions paid into the account which amounted to £29.081m (35.3% of pensionable salary). The contribution rate of 31.0% was set following a revaluation of the scheme's total liabilities by the Government Actuary's Department as at the 31 March 2016. A further revaluation as at the 31 March 2020 determined a revised employer's contribution rate of 35.3% with effect from the 1 April 2024.

In addition to the standard contribution, individual payments totalling £0.525m were made into the Pensions Fund Account to reimburse the extra cost of benefits becoming payable early due to ill-health retirement. Injury-related payments amounted to £3.162m and these were paid from the Comprehensive Income and Expenditure Account. The Pensions Fund Account is shown on page 53.

Transactions relating to post-employment benefits (b)

Under IAS 19 we recognise the cost of retirement benefits in the Net Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of post-employment/retirement benefits is reversed out of the General Reserve via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Reserve Balance via the Movement in Reserves Statements during the year: -

2023/24 £'000	Local Government Pension Scheme Comprehensive Income & Expenditure Statement	2024/25 £'000
11,319	Cost of Services	10,925
-	Current service cost *	-
	Past Service cost (incl curtailments)	
54	Financing and Investment Income and Expenditure	(9)
	Net Interest cost	
11,373	Total Post-Employment Benefits Charged to the Surplus or Deficit on the Provision of Services	10,916
	Other Post-Employment Benefits charged to the Comprehensive Income and Expenditure Statement	
(15,003)	Re-measurements of surpluses/deficits	4,279
(2,123)	Return on scheme assets (excluding the amount included in the net interest expense)	(585)
(23,026)	Actuarial losses/(gains) arising from changes in demographic assumptions	(61,624)
9,904	Actuarial losses/(gains) arising from changes in financial assumptions	(2,916)
	Other experience changes	(29,928)
	Changes in the effect of the asset ceiling	
(30,248)	Total Re-measurements	(90,774)
(18,875)	Total Post-Employment Benefits Charged to the Comprehensive Income and Expenditure Statement	(79,858)

2023/24 £'000	Local Government Pension Scheme Movement in Reserves Statement Expenditure	2024/25 £'000
18,875	Reversal of net charges for post-employment benefits in accordance with the code	79,858
10,309	Actual amount charged against the General Reserve Balance for pensions in the year: Employers' contributions payable to scheme plus added years	11,323
-	Retirement benefits payable to pensioners	-

2023/24 £'000	Police Pension Scheme Comprehensive Income & Expenditure Statement	2024/25 £'000
14,890	Cost of Services Current service cost	15,790
78,220	Net Interest cost	80,780
93,110	Total Post-Employment Benefits Charged to the Surplus or Deficit on the Provision of Services	96,570
-	Other Post-Employment Benefits charged to the Comprehensive Income and Expenditure Statement Re-measurement of surpluses /deficits :	-
(35,930)	Actuarial losses/(gains) arising from changes in demographic assumptions	560
20,650	Actuarial losses/(gains) arising from changes in financial assumptions	(198,630)
	Other experience changes	(2,530)
(15,280)	Total Re-measurements	(200,600)
77,830	Total Post-Employment Benefits Charged to the Comprehensive Income and Expenditure Statement	(104,030)

2023/24 £'000	Police Pension Scheme Movement in Reserves Statement	2024/25 £'000
(77,830)	Reversal of net charges for post-employment benefits in accordance with the code	104,030
29,118	Actual amount charged against the General Reserve Balance for pensions in the year: Employers' contributions payable to scheme	32,768
-	Retirement benefits payable to pensioners	-

*For the LGPS the current service cost is within the Police Staff Pay and Allowances figure in note 2.

The Current Service Cost – which is the total increase in entitlements earned by existing employees during the year and the other gains and losses are affected by changes in the key actuarial and financial assumptions used in projecting future pension entitlements. Note 10b details the key demographic and financial assumptions which have been used in calculating these figures. It also quantifies the potential impact if different assumptions are used.

McCloud Remedy Judgement - Police Pension Challenge

The McCloud remedy window ran from 1 April 2015 to 31 March 2022. Eligible members will be able to elect which scheme they wish to receive benefits from for this period. Due to the differing benefits structures we expect the majority of eligible police members to elect to take legacy scheme (1987 Scheme or 2006 Scheme) benefits for the remedy period as these are usually the most beneficial schemes for members.

An allowance for McCloud remedy was first included in the 2018/19 disclosures as a past service cost for four years remedy service from 2015-2019. This past service cost was attributed proportionally to the 1987 and 2006 schemes. For subsequent years to 2021/22 an allowance was made in the 2015 service costs for the annual accrual of additional remedy service.

Now that the remedy window has closed, we have moved all McCloud related liabilities for eligible members for the period 2019 to 2022 to the associated legacy schemes. This means all McCloud liability are held within the legacy scheme which we expect benefits to be paid from. In the 2022/23 disclosures, this led to a past service cost in the 1987 Scheme and the 2006 Scheme and a past service gain in the 2015 Scheme.

At the time when the 2023/24 accounting disclosures were being prepared, only a small amount of time had passed from the McCloud implementation date on 1 October 2023 which meant that the contributions adjustments made by administrators during that period were immaterial. However, since then, we have refined the accounting treatment of the contributions adjustments in the 2024/25 disclosures, so they are shown as net cashflows.

GMP equalisation and indexation

The Government has published a consultation on indexation and equalisation of Guaranteed Minimum Pensions (GMP), with the proposal being to extend the "interim solution" to those members who reach State Pension Age after 5 April 2021 (7 October 2020). A past service cost was included in the 2019/20 disclosures for extending the equalisation to all future retirees.

There was also a further court ruling on 20 November 2020 regarding GMP equalisation. The court ruled that scheme trustees are required to revisit past Cash Equivalent Transfer Values (CETVs) to ensure GMP equalisation. This may result in additional top-ups where GMP equalisation means that members did not receive their full entitlement. For public service pension schemes, we expect that this ruling will be taken forward on a cross scheme basis and will need legal input.

This may require revisiting past CETV cases for members with State Pension age after 5 April 2016 and who took a CETV from the scheme before the CETV were equalised. The scope of any costs are yet to be determined and we do not have data on historic CETVs on to estimate the potential impact, but we expect it will be a relatively small uplift for a relatively small subset of members (i.e. those who took a CETV and are in scope for a top up).

No additional costs were recognised for GMP equalisation and indexation in 2021/22, nor are they expected to for 2023/24, nor are they expected to for 2024/25. In the absence of any further developments, we also propose no additional costs are recognised for 2025/26.

GMP Overpayments

We are aware that schemes have undertaken GMP reconciliation work with HMRC, and in some cases this work will result in identifying members who have been overpaid or underpaid. We have assumed that any overpayments or underpayments, to the extent they are not already reflected in underlying data, are not significant to the disclosures GAD prepares for the balance sheet and the profit and loss accounts.

Part-year inflation

We have allowed for known inflation between September 2024 and 31 March 2025.

Survivor benefits legal challenges (Goodwin)

In 2020 a legal challenge was brought against the Teachers' Pension Scheme regarding the provision of survivor benefits to a male spouse of a female member. In that scheme, dependant benefits for a male spouse of a female member are based on service from 1988 and do not include service before 1988.

Home Office advised that due to the historic equal benefit structure in the 1987 Scheme they do not believe there is a similar situation in the Police Pension Scheme in England & Wales and therefore there was no requirement to allow for this legal challenge in the 2024/25 accounting disclosures.

Section 37 legal case

We are aware of the case of Virgin Media Ltd vs NTL Pension Trustees II Limited (and others) relating to actuarial certifications under section 37 of the Pension Schemes Act 1993. This case potentially has implications for the validity of amendments made by schemes which were contracted-out on a salary-related basis between 6 April 1997 and the abolition of contracting-out in 2016. There is considerable uncertainty around this case including potential read across to public service pension schemes. We understand that schemes continue to administer benefits and recognise liabilities in accordance with scheme regulations currently in force. No additional costs are assumed to be recognised in the 2024/25 accounting disclosures.

Note 11 Assets and Liabilities in relation to Post-employment benefits (a)

Note 11 contains details of the Chief Constable's participation in the Local Government Pensions Scheme (administered by Derbyshire County Council) and the Police Pension Scheme in providing Police staff and police officers with retirement benefits.

Reconciliation of the present value of the schemes' liabilities is as follows:

2023/24 £'000	Funded liabilities: Local Government Pension Scheme	2024/25 £'000
(328,886)	Opening Balance as at the 1 April	(334,817)
(11,319)	Current Service Cost	(10,925)
-	Past Serve Cost (inc. curtailments)	-
(15,749)	Interest on pension liabilities	(16,370)
(3,724)	Contributions from scheme participants	(4,120)
	Remeasurement gains and (losses):	
2,123	Actuarial gains/(losses) arising from changes in demographic assumptions	585
23,026	Actuarial gains/(losses) arising from changes in financial assumptions	61,624
(9,904)	Other experience changes	2,916
9,616	Benefits paid	9,070
(334,817)	Deficit as at the 31 March	(292,037)

2023/24 £'000	Unfunded Liabilities Police Pension Scheme	2024/25 £'000
(1,670,022)	Opening Balance as at the 1 April	(1,723,332)
(14,890)	Current Service cost	(15,790)
(78,220)	Interest on pension liabilities	(80,780)
30	Past Service Cost	-
(11,620)	Contributions from scheme participants	(12,870)
(33,290)	Change in estimate of the scheme liabilities	-
	Remeasurement gains and (losses):	
-	Actuarial gains/(losses) arising from changes in demographic assumptions	2,530
35,930	Actuarial gains/(losses) arising from changes in financial assumptions	198,630
(20,650)	Other experience gains and (losses)	(560)
69,400	Benefits Paid	74,700
(1,723,332)	Deficit as at the 31 March	(1,557,472)

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Chief Constable's obligation in respect of its defined benefit plans is as follows:

Balance Sheet	Local Government Pension Scheme		Police Pension Scheme		Balance Sheet	
	2023/24 £'000	2024/25 £'000	2023/24 £'000	2024/25 £'000	2023/24 £'000	2024/25 £'000
Present value of the defined benefit obligation	(334,817)	(292,037)	(1,723,332)	(1,557,472)	(2,058,149)	(1,849,509)
Fair Value of Scheme Assets	363,361	383,225	-	-	363,361	383,225
Asset Ceiling Adjustment	(28,544)	(91,382)			(28,544)	(91,382)
Net liability arising from defined benefit obligation	NIL	(194)	(1,723,332)	(1,557,472)	(1,723,332)	(1,557,666)

The liabilities show the underlying long-term commitments that the Chief Constable must pay for post-employment (retirement) benefits. The total liability of £1,557,666m has a substantial impact on the net worth of the Chief Constable as recorded in the Balance Sheet. Some £1,557.472m of this overall deficit relates to the Police Pension Scheme, which is a centrally funded scheme administered and underwritten by HM Government. However, statutory arrangements for funding the deficit mean that the financial position of the PCC Group remains stable: -

The Local Government Pension Scheme

- Any deficit on the local government scheme will be made good by contributions over the remaining working life of employees (i.e. before payments fall due), as assessed by the scheme actuary.
- Also, due to national changes under the Public Pensions Services Act 2013, as from the 1 April 2014 scheme members accrue pension entitlements based on career-average salaries instead of the salary being paid at the point of retirement as previously.

The Police Pension Scheme

- The method of financing Police Officers pensions changed from April 2006. Prior to this date, all pension costs were charged to the Constabulary's operational account and funded by general revenue funding along with all other operational expenses. This created wide fluctuations in the cost of pensions from year to year.
- Employers now pay a fixed contribution (i.e. an actuarially determined % of pensionable pay) into a separate pension account. Any net cost of pensions paid to members in excess of this contribution is offset by a Home Office top-up grant.
- This change to the method of financing police officer pensions, and the fact that the employer contribution rate is assessed on a regular basis creates a more stable environment for Police Officer pensions.
- In addition, the introduction of a new Police Pension Scheme from April 2015 means that benefits accrued in this scheme are based on a retirement age of 60, which is later than previously, and on average salaries over the whole period of employment.

The total contributions expected to be made to the Local Government Pension Scheme by the Chief Constable in the year to the 31 March 2025 are £11.304m. Expected contributions for the Police Pension Scheme in the year to the 31 March 2025 are £63.614m.

The weighted average duration of the defined benefit obligation for members of the Local Government Pension Scheme is 21 years. The weighted average duration of the defined benefit obligation for the Police Pension Schemes is 16 years.

Reconciliation of the Movements in the Fair Value of the assets of the Local Government Pension Scheme: -

2023/24 £'000	Local Government Pension Scheme	2024/25 £'000
328,243	Opening fair value as at the 1 April	363,361
15,695	Interest Income	17,763
15,003	The return on plan assets, excluding the amount included in the net interest expense	(4,279)
10,312	Contributions from employer	11,330
3,724	Contributions from employees into the scheme	4,120
(9,616)	Benefits/transfers paid	(9,070)
-	Other Experience	-
363,361	Closing fair value of scheme assets as at the 31 March	383,225

The expected return on Scheme assets is determined by considering the expected returns available on the assets underlying the current investment policy. Expected yields on fixed investments are based on gross redemption yields as at the Balance Sheet date. Expected returns on equity investments reflect long-term real rates of return experienced in the respective markets.

The actual return on scheme assets including expected return on plan assets in the year was a gain of £13.484m (2023/24 a gain of £30.698m).

In 2024/25 the local government pension scheme has a net asset in respect of the funded obligations due to changes in the financial assumptions and an excess return on assets. In accordance with proper accounting practice, as asset ceiling calculation has been undertaken which shows that the net asset cannot be realised. As a result the net assets are reduced by £91m.

Local Government Pension Scheme assets comprised: -

Basis for estimating assets and liabilities (b)

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years dependent on assumptions about mortality rates, salary rates etc. Under the projected unit method, the current service cost will increase as the members of the scheme approach retirement for the local government and police pension schemes.

The Police Officer scheme has been assessed by the Government Actuary Department (GAD), estimates are based on the latest full valuation of the scheme as at 31 March 2020.

The Local Government scheme has been assessed by Hymans Robertson LLP, an independent firm of actuaries - estimates are based on the latest full valuation of the scheme as at the 31 March 2025. The main assumptions used in their calculations have been: -

	Local Government Pension Scheme		Police Pension Schemes	
	2023/24	2024/25	2023/24	2024/25
Mortality assumptions:	Years	Years	Years	Years
Longevity at 65 for current pensioners:				
Men	20.8	20.8	21.9	21.9
Women	23.8	23.8	23.6	23.9
Longevity at 65 for future pensioners				
Men	21.6	21.5	23.6	23.3
Women	25.3	25.3	25.1	25.2
Financial Assumptions	%	%	%	%
Rate of CPI inflation	2.75	2.75	2.60	2.70
Rate of increase in salaries (Long Term)	3.75	3.75	3.85	3.45
Rate of increase in pensions	2.95	2.95	2.60	2.70
Rate of CARE revaluation	-	-	3.85	3.95
Rate for discounting scheme liabilities	4.85	5.80	4.75	5.65
Take up option to convert annual pension into retirement grant: pre-April 2008 service	60	60	n/a	n/a
post-April 2008 service	60	60	n/a	n/a

Covid-19 implications

Covid-19 and climate change are areas where there remains significant uncertainty, which could affect both future economic and demographic experience. In line with previous years, the assumptions used in the preparation of the 2024/25 accounts allow for the current impacts of Covid-19 and climate change to the extent that they are reflected in the market data used to set or derive assumptions.

The 2020-based population mortality projections allow for the short-term impacts of Covid-19 for 2019 to 2024 in line with the average views of an expert independent panel. The 2022-based population projections consider Covid-19 as a mortality shock event, applying an appropriate short-term adjustment rather than projecting its effects forward. Death rates from Covid-19 in excess of that already allowed for in the mortality assumptions and reflected in the membership data would emerge as an experience gain in future years' accounts

Cost of Living implications

The effect of the continued high inflation rates has had some impact on the discount rate used in valuation of the liabilities. The accounting assumptions are based on market expectations as at the 31 March 2025 and were shaped by global events, therefore affecting the value placed on the obligations.

Sensitivity of assumptions

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above.

The sensitivity analysis below has been determined based on reasonably possible changes to the assumptions occurring at the end of the reporting period. It assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice this is unlikely to occur and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projection unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Change In Assumption as at the 31/03/2025					
		0.1% decrease in Real Discount Rate	1 year increase in member life expectancy	0.1% increase in the salary increase rate	0.1% increase in the pension increase rate
Local Government Pension Scheme	Approximate % increase to Employer Liability	2.0	4.0	0.0	2.0

Valuation of Assets

All Plant and Equipment is valued at historic cost.

Vehicle information has been taken from the Vehicle Fleet Information System (the total number of vehicles as at the 31 March 2025 is 764). IT and Communications information has been provided by the Information Services Department.

Depreciation

The basis of depreciation is shown in the Statement of Accounting Policies (page 26).

Note 13 Intangible Assets

The Chief Constable accounts for its software as intangible assets, to the extent that the software is not an integral part of a particular IT system and accounted for as part of the hardware item of Plant and Equipment.

Purchased Software Licences	2023/24 £'000	2024/25 £'000
Balance as at the 1 April		
Gross carrying amount	7,489	7,602
Accumulated amortisation	(6,975)	(7,136)
Net carrying amount as at the 1 April	514	466
Additions	113	52
Reclassifications	-	-
Derecognitions	-	-
Amortisation in year	(161)	(152)
Balance as at the 31 March	466	366

Note 14 Capital Expenditure and Capital Financing Statement

The total amount of capital expenditure incurred in the year is shown in the table below, together with the resources that have been used to finance it. The Chief Constable does not hold funding so the assets are funded by Intra group funding from the Commissioner. The Chief Constable does not have a capital financing requirement.

2023/24 £'000		2024/25 £'000
	Capital Financing Requirement	
	Capital investment	
8,882	<i>Plant and Equipment</i>	1,512
113	<i>Intangible assets</i>	52
8,995	Total Capital Investment	1,564
	Sources of Finance	
(8,995)	<i>Intra Group funding</i>	(1,564)
-	Closing Capital Financing Requirement	-

Note 15 Provisions

A provision should be made for any liabilities of uncertain timing or amount that have been incurred and should cover costs that are more likely than not to occur.

Provisions are shown on the Commissioner's balance sheet. The provision for the year goes through the Chief Constable's CIES.

Liability Insurance Provision -This provision is to meet liability claims which are not covered by external insurers. The balance reflects the claims handlers' assessment of probable liabilities on claims outstanding as at the 31 March 2025, together with an estimate for further claims relating to 2024/25. On this basis a provision of £2.098m is required.

Vehicle Insurance Provision – This provision is to meet Third Party claims which are not covered by external insurers. The balance reflects the claims handlers' assessment of probable liabilities on claims outstanding as at the 31 March 2025, together with an estimate for further claims relating to 2024/25. On this basis a provision of £0.696m is required.

Backdated Overtime Provision – This is a provision for the costs of settling a number of claims outstanding against Derbyshire Police arising from the ruling in Allard v Devon and Cornwall Police. This related to entitlement to overtime payments following recalls to duty to meet specific operational requirements.

National Undercover Provision – This majority of this provision represents Derbyshire's share of a claim received nationally from 99 Undercover Officers. The estimated cost of the claim to be met from all Forces is £11.9m. Derbyshire's share based on NRE is £0.175m. The remaining £0.004m is Derbyshire's share of Civil Proceedings Arising out of Conduct of UC Officer which has been notified by the National Police Chiefs' Council.

Provisions	Liability Insurance £'000	Vehicle Insurance £'000	Backdated Overtime £'000	National Undercover Provision £'000	Total Provisions £'000
Balance as at the 1 April 2024	2,234	650	311	180	3,375
Provision in Year	415	325	-	-	740
Expenditure in year	(551)	(279)	(311)	-	(1,141)
Transfer to/from Insurance Reserve	-	-	-	-	-
Balance as at the 31 March 2025	2,098	696	0	180	2,974

Provisions are split between short term (£0.945m) and long term (£2.028m) in the balance sheet. Short-term provisions cover liabilities that are expected to be settled within 12 months of the balance sheet date.

Note 16 Contingent liabilities / Contingent assets

Contingent liabilities/assets arise where the Chief Constable is aware of a possible obligation that has occurred because of events prior to the Balance Sheet date, but where the existence will only be confirmed by future events which are not in the Chief Constable's control.

Contingent Liabilities

Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably. These amounts are not recorded in the PCC's accounts because:

- It is not probable that an outflow of economic benefits or service potential will be required to settle the obligation or
- The amount of the obligation cannot be measured with sufficient reliability at the year end.

The National Police Chief Council have also made the Force aware of potential civil proceedings arising out of conduct of an officer seconded to the National Public Order Intelligence Unit (NPOIU) whilst working undercover between 2003 and 2010. Although the Force where the officer originates from would bear any internal legal costs as this individual was seconded to a national body any other costs arising from a successful claim in this matter, including disbursements, external legal costs, damages, or settlement sums, would be apportioned to police forces according to the prevailing national funding formula for police forces at the time of payment.

Contingent Assets

The Chief Constable has no contingent assets as at 31 March 2025.

Note 17 Unusable Reserves

Unusable Reserves	31 March 2024 £'000	31 March 2025 £'000
Revaluation Reserve	1	1
Capital Adjustment Reserve	22,984	19,219
Pensions Reserve	(1,723,332)	(1,557,666)
Accumulated Absence Account	(3,477)	(3,446)
Total Usable Reserves	(1,703,824)	(1,541,892)

Capital Adjustment Account

The capital adjustment account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provisions. The account is debited with the cost of acquisition, construction and enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert fair value figures to a historical cost basis). The Account is credited with the amounts set aside by the Commissioner (intra group funding) as finance for the costs of acquisition, construction and enhancement.

The Movement on Reserves Statement details the source of all transactions posted to the Account, apart from those involving the Revaluation Reserve.

Capital Adjustment Account	2023/24 £'000	2024/25 £'000
Balance as at the 1 April	18,617	22,984
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement		
<ul style="list-style-type: none"> • Charges for depreciation and impairment of non-current assets • Amortisation of Intangible Assets • Amounts of non current assets written off on disposal or sale as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement 	(4,366)	(4,890)
	(161)	(151)
	(101)	(288)
Net written out amount of the cost of non current assets consumed in the year	(4,628)	(5,329)
Intra Group Funding	8,995	1,564
Balance as at the 31 March	22,984	19,219

Pension Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. The Chief Constable accounts for post employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet these costs. However, statutory arrangements require benefits earned to be financed as the Chief Constable makes employer's contributions to pensions funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Chief Constable has set aside by the time the benefits come to be paid.

Pensions Reserve	2023/24 £'000	2024/25 £'000
Balance as at the 1 April	(1,670,665)	(1,723,332)
Transfer of Police Staff		
Actuarial gains or losses on pensions assets and liabilities	12,238	291,374
Asset Ceiling Adjustment	(28,544)	(91,382)
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement.	(104,453)	(107,486)
Employer's pensions contributions and direct payments to pensioners payable in the year	68,092	73,160
Balance as at the 31 March	(1,723,332)	(1,557,666)

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Reserve Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave, time off in lieu entitlement carried forward at the 31 March. Statutory arrangements require that the impact on the General Reserve Balance is neutralised by transfers to or from the Account.

Accumulated Absences Account	2023/24 £'000	2024/25 £'000
Balance as at the 1 April	(3,184)	(3,477)
Settlement or cancellation of accrual made at the end of the preceding year	3,184	3,477
Amounts accrued at the end of the current year	(3,477)	(3,446)
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(293)	31
Balance as at the 31 March	(3,477)	(3,446)

Note 18 Authorisation of Accounts for issue

The 2024/25 Statement of Accounts were authorised for issue by the Chief Finance Officer on the 31st July 2025. All events after the balance sheet date until this date have been considered for disclosure as events after the balance sheet date.

Note 19 Post Balance sheet events

There are no post balance sheet events.

Notes to the Pension Fund Account

Note 1 Police Pensions Fund Account

The Police pension scheme is an unfunded single employer defined benefit scheme. This means that it provides pensions and other retirement benefits for police officers based on pensionable pay, but there are no investment assets built up to meet the pensions liabilities as they fall due.

Up until 2014/15 two police pension schemes were in operation, both of which gave retirement benefits based on 'final' salaries:

- **The 1987 Police Pension Scheme** - based on a maximum pensionable service of 30 years.
- **The 2006 Police Pension Scheme** (effective for police officers commencing from April 2006 onwards) - based on a maximum pensionable service of 35 years.

From the 6 April 2015 a new Police Officer pension scheme came into existence

- **The Police Pension Scheme 2015** - which provides retirements based on 'career average' salaries, meaning that the benefits receivable are based on a proportion of pensionable pay earned in each year of scheme membership.

The 1987 and 2006 schemes were closed to new members as from 31 March 2015 and were closed completely as from 31 March 2022.

31 March 2022 was the latest point to which existing members of the 1987 and 2006 schemes (as at 31 March 2015) could continue to accrue final salary benefits in those schemes under 'transitional protection' arrangements put in place when the 2015 scheme was introduced. In general terms to receive protection members had to be within 10 years of their normal point of retirement under their existing scheme rules. Depending on their age and length of service, protection was either 'full' (meaning they remained in their legacy scheme for the full 7-year period between 2015 and 2022) or 'tapered' (they remained in the legacy scheme for a proportion of the 7-year transitional period).

All existing officers at April 2015 not eligible for protection arrangements were automatically transferred into the 2015 scheme from that date. Similarly new officers joining the service on or after the 1 April 2015 were and are automatically entered into the 2015 Scheme. All members have a right to opt out of the scheme at any time.

At about the same period as the new 'career average' Police Officer scheme was implemented, similar schemes were also introduced for various other professions within the public sector, such as those for court judges, firefighters and civilian staff working in local government. Each had similar protection arrangements for members who were nearer to retirement. As those arrangements disproportionately benefited older members they were subject to a series of legal challenges on the basis of age discrimination.

Following rulings finding in favour of such challenges against the arrangements for judges and firefighters (the 'McCloud' and 'Sargeant' judgements), the Supreme Court denied the Government's request for an appeal against the rulings on 27 June 2019. As a result of this the Treasury announced on the 15 July 2019 that the rulings would apply to all of the main public service pension schemes and the Government afterwards stated that any remedial action implemented for claimants will be extended to all non-claimants who are in the same legal and factual position.

On 16 July 2020 HM Treasury published proposals for implementing a remedy to the age discrimination across all the public sector schemes affected by the rulings. Following a period of consultation the key details of the Remedy were confirmed on 4 February 2021, including:

- **determination of which members should be eligible for remedy**, namely: those who were members of a public sector pension scheme on or before the 31 March 2012 and on or after the 1 April 2015.
- **determination of the period of remedy**, namely: April 2015 to March 2022, with all active members being put into their respective CARE schemes from the 1 April 2022.
- **the fundamental mechanism for achieving remedy**, namely: a 'Deferred Choice Underpin', meaning that at the point they retire each eligible member will be able to choose to have been in either their legacy pension scheme or their new scheme for the seven-year period of the remedy.
- **Confirmation that the legacy 1987 and 2006 schemes would close from 31 March 2022**
- **Determination that the retrospective remedy would come into force on 1 October 2023**

These details were enacted by the Public Service Pensions and Judicial Offices Act 2022 which received royal assent on 10 March 2022.

Each individual Commissioner is required by legislation to operate a Pension Fund Account and the amounts that must be paid into and paid out of the Pension Fund are specified by regulation (Police Pensions Regulations 2007 Statutory Instrument 1932/2007).

Credits to the Pension Fund Account include a fixed employer's contribution, being an actuarially assessed % of pensionable salary. This employer's contribution is charged to the Comprehensive Income and Expenditure Statement and, along with officers' contributions, is paid into the Pensions Fund Account from which pension payments are made.

Employer and employee contribution rates are set nationally by the Home Office and are determined by a 4-yearly re-valuation of total scheme liabilities by the Government Actuary's Department. A re-valuation took place as of the 31 March 2020 and was used to set an employer contribution rate from April 2024.

Under these funding arrangements the Pension Fund Account balances to nil at the year-end by either receiving a contribution from the Commissioner to meet a deficit or making a payment to him equivalent to any surplus achieved. In 2023/24 a contribution of £28.620m was received, this being equivalent to the pension top-up grant receivable from the Home Office for that year.

The pension fund is statutorily prevented from including interest on cashflows and administration expenses in the pension fund, these expenses are borne by the Group Comprehensive Income and Expenditure Statement.

Costs of injury awards and ill health retirements are not part of the Pensions Fund Account and will continue to be paid from the Group Comprehensive Income and Expenditure Statement.

Note 2 Pension Fund Liabilities

The Pension Fund's financial statements do not take account of liabilities to pay pensions and other benefits after the accounting period.

Note 3 Accounting Policies

Accounting policies conform to those set out in the Statement of Accounts (page 22 to 29).

Annual Governance Statement

1. Introduction

- 1.1. This Annual Governance Statement explains how the Chief Constable has complied with: -
- The Derbyshire Joint Code of Corporate Governance.
 - Requirements of Regulation 6[1] (a) of the Accounts and Audit (England and Wales) Regulations 2015 in relation to the review of the effectiveness of the system of internal control.
 - The Police Reform and Social Responsibility Act 2011 (the Act).
- 1.2. The Police and Crime Commissioner (Commissioner) and the Chief Constable have approved and adopted a Derbyshire Joint Code of Corporate Governance which is consistent with the principles of the Chartered Institute of Public Finance and Accountancy (CIPFA) Framework: Delivering Good Governance in Local Government: Guidance note for Police. A copy of the Joint Code of Corporate Governance can be obtained from the Office for the Police and Crime Commissioner for Derbyshire, Butterley Hall, Ripley, Derbyshire, DE5 3RS. It is also available on the Commissioner's website.

2. Scope of responsibilities

- 2.1. The Commissioner and the Chief Constable are responsible for ensuring that business is conducted in accordance with the law and proper standards, that public money is safeguarded and properly accounted for, and used economically, efficiently, and effectively. The Commissioner and Chief Constable are responsible under the Police Reform and Social Responsibility Act 2011 (the Act) for securing, inter alia, efficient, and effective policing for Derbyshire and to deliver value for money, being continuous improvement in the way in which its functions are exercised, having regard to a combination of economy, efficiency, and effectiveness.
- 2.2. In discharging this overall responsibility, the Chief Constable is responsible for putting in place proper arrangements for the governance of her affairs and facilitating the exercise of her functions, which includes ensuring a sound system of internal control is maintained through the year and that arrangements are in place for the management of risk.
- 2.3. The Chief Constable for Derbyshire is responsible for maintaining the King's peace and has direction and control over the officers and staff operating within Derbyshire Constabulary. The Chief Constable holds office under the Crown and is appointed by the Commissioner.
- 2.4. The Chief Constable is accountable in law for the exercise of policing powers and to the Commissioner for the delivery of efficient and effective policing, management of resources and expenditure by Derbyshire Constabulary. At all times the Chief Constable, her officers and staff remain operationally independent in the service to the public. In discharging her overall responsibilities, the Chief Constable is responsible for establishing and maintaining appropriate risk management processes, governance arrangements and ensuring that there is a sound system of internal control which facilitates the effective exercise of these functions.

- 2.5. Under the Police Reform and Social Responsibility Act 2011 the Chief Constable's CFO has a personal fiduciary duty by virtue of their appointment as the person responsible for the proper financial administration of Derbyshire Constabulary. This includes requirements and formal powers to safeguard lawfulness and propriety in expenditure (Section 114 of the Local Government Act 1988 as amended by paragraph 188 of Schedule 16 to the Police Reform and Social responsibility Act 2011 ("2011 Act")). The Chief Constable's CFO is a key member of Derbyshire Constabulary's Chief Officer Team, helping it to develop and implement strategy and to resource and deliver the Commissioner's strategic objectives sustainably and in the public interest. The CFO is actively involved in, and able to bring influence to bear on, all strategic business decisions of the Chief Constable to ensure immediate and longer-term implications, opportunities and risks are fully considered. The CFO leads the promotion and delivery by the Chief Constable of good financial management so that public money is safeguarded at all times and used appropriately, economically, efficiently, and effectively. The CFO ensures the finance function is resourced to be fit for purpose and oversees that appropriate management accounting systems, functions and internal controls are in place so that finances are kept under review on a regular basis. The arrangements in place are in line with the expectations set out in the CIPFA Financial Management Code 2019 and the CIPFA Statement on the Role of the Chief Financial Officer of the Chief Constable (March 2021).
- 2.6. Under s.35 of the 2011 Act, in exercising her functions the Chief Constable must ensure that good value for money is obtained and this includes ensuring that persons under their direction and control obtain good value for money in exercising their functions.
- 2.7. Derbyshire Constabulary (as a standalone entity) is legally required to produce an Annual Governance Statement. This statement helps the Commissioner to hold the Chief Constable to account for efficient and effective policing. This statement sits alongside the Statutory Accounts for the Chief Constable and gives assurance to the Commissioner of Derbyshire Constabulary's governance arrangements.

3. The Governance Framework

- 3.1. The governance framework comprises the systems and processes, culture, and values by which the Chief Constable is directed and controlled and its activities through which it accounts to, engages with, and leads its communities. It enables the Chief Constable to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate services and value for money. The Force Management Statement also provides a source of assurance in respect of governance and performance and a high-level review of the CIPFA Code of Financial Management has not highlighted any significant areas of non-compliance.
- 3.2. The Constabulary's governance framework was in place at the year-end 31st March 2025 and is expected to be up to the date of the approval of the Statement of Accounts 2024/25.
- 3.3. This statement has been prepared for the 2024/25 financial year to state Derbyshire Constabulary's current governance arrangements, to report on their effectiveness during the year and to outline future actions planned to further enhance the arrangements.
- 3.4. Derbyshire Constabulary has adopted a joint code of corporate governance with the Commissioner, which is consistent with the principles of the CIPFA/SOLACE Framework: Delivering Good Governance in Local Government. This statement explains how the Chief Constable has complied with the code and also meets the requirements of Section 6 of the Accounts and Audit Regulations (England and Wales) 2015 in relation to the publication of a statement on internal control. This is underpinned by the governance framework as follows.

3.5. A Joint Audit Risk and Assurance Committee (JARAC) is in place, it carries out a role similar to that of an audit committee but acts in an advisory and assurance capacity. It provides independent assurance to both the Commissioner and the Chief Constable on the adequacy (excluding Professional Standards) of: -

- Risk Management and the internal control framework of the Commissioner and Chief Constable.
- Governance arrangements including providing for value for money.
- Support and review work of audit providing assurance on risk management, internal controls, and the annual accounts.
- Appointment of internal audit & recommendations on external audit provision.
- Appropriate scrutiny of annual accounts including the financial reporting process.

4. Corporate Governance Reporting and Processes

4.1. Derbyshire Constabulary's Chief Officer Team, led by the Chief Constable, is responsible for ensuring Derbyshire Police has a corporate governance framework that reflects the principles of openness, integrity, accountability, and equality, and supports the delivery of quality policing.

4.2. The governance framework enables Derbyshire Constabulary to monitor the achievement of its strategic objectives and to consider whether those objectives have led to the delivery of appropriate, cost-effective services, including achieving value for money. An annual review of this framework takes place and appropriate improvements are made to ensure that it remains fit for purpose.

4.3. A new Performance Framework was developed in force from April 2024, which used measures that directly support the PEEL outcomes to measure performance. The number of boards was reduced and consolidated into a full day Performance Assurance Board (PAB) that has responsibility for all issues related to performance across the organisation. Each Assistant Chief Constable chairs a board covering strategy and policy for their portfolios, with anything performance related going through PAB. 'Business as usual' meetings within the force feed upwards through the relevant governance meeting into PAB.

- 4.4. As the new framework has matured during 2024/25 some elements of duplication were identified and from April 2025 the model has been amended slightly with the Resources Board now merged into the other Governance Boards for Performance Assurance and Strategic Change and the Force Improvement Board has been given a slightly different focus and renamed Force Audit & Inspection.

- 4.5. The system of internal control is a significant part of the framework and is designed to manage risk to a reasonable level. It cannot eliminate all risk of failure to achieve policies, aims and objectives and can therefore only provide reasonable and not absolute assurance of effectiveness. The system of internal control is based on an ongoing process designed to identify and prioritise the risks to the achievement of the Constabulary's policies, aims and objectives, to evaluate the likelihood and potential impact of those risks being realised and to manage them efficiently, effectively, and economically.

5. Organisational Structures and Processes

- 5.1. Decision making structures are well established and are regularly reviewed to ensure they are fit for purpose. The Commissioner's Police and Crime Plan sets out policing priorities and the resourcing of those priorities. It reflects the areas of greatest importance locally, identified through consultation with the public, or where performance improvement is required. Our plan and our planning process are complementary to other partnership plans such as Community Safety Partnerships, Local Criminal Justice Board, Safeguarding Boards and Local Strategic Partnerships.
- 5.2. We work closely with our partners to ensure consistency and alignment where possible. The Chief Constable holds regular meetings, which are attended by the Constabulary's Chief Officer Team, Divisional Commanders and Heads of Departments and senior members of staff. These meetings are used to consult on and develop policy and ensure the engagement of the senior managers of the organisation in change. The Police and Crime Plan objectives are cascaded throughout the Constabulary through the Force priorities which are monitored at the appropriate governance boards and the Performance Assurance Board. There is a Police and Crime Delivery Plan Tracker that provides the Commissioner with direct access to provide progress and performance updates against the Plan.
- 5.3. The Commissioner approves an annual budget for the Constabulary activity which is aligned to the Police and Crime Plan and the Constabulary's priorities.

6. The risk management process by which Derbyshire Constabulary identifies and seeks to prevent and mitigate key risks.

- 6.1. An infrastructure has been established to support the effective management of risk and ensure that information on risks is gathered and acted on in a consistent and efficient manner. The Risk Management Group annually reviews the Risk Management Policy Statement and policy guidance and meets in year to consider changes in risk and mitigation.

- 6.2. The Constabulary recognises exposure to a wide and diverse range of risks and opportunities in securing the delivery of priorities and objectives. All employees, volunteers, contractors, and partners are responsible for identifying and managing risks as part of their role and the Assistant Chief Officer for Resources, as the corporate sponsor, ensures that risk management is supported and championed at Chief Officer Team level and throughout the Constabulary.
- 6.3. The Risk Management Policy provides clear guidance by which the Constabulary manages uncertainty in a structured and effective way. The risk management framework and infrastructure provide a solid foundation for risk management and standard for consistency, ensuring that information on risks is gathered and acted upon in an efficient manner. This is captured in a computerised system to manage risks and enable greater analytical information and appropriate reporting of risks.
- 6.4. Risk management is fully embedded into the business planning process to identify the threat, harm and risk facing the Constabulary in order to prioritise and identify areas which need resourcing. The Constabulary maintains a hierarchy of risk registers for strategic, operational, project and programme risks. Each risk is assigned to the appropriate governance board for oversight and assurance. The corporate risks are regularly subject to review and scrutiny by the JARAC.
- 6.5. The Risk Management Board, chaired by the Assistant Chief Officer for Resources, meets quarterly to monitor changes to the Constabulary risk profile and process. The Commissioner has a risk champion who attends the meeting to maintain a strategic overview of risk management issues in the Constabulary. This is attended annually by a member of the JARAC.

7. Business Continuity

- 7.1. Derbyshire Constabulary has robust plans in place to ensure business continuity following incidents. The Business Continuity Steering Group, comprising of relevant departmental representatives assist the Business Continuity Manager in developing the business continuity management process and respond to any business continuity crisis, as required.
- 7.2. Business Continuity arrangements involve close liaison with other partners and business continuity links have been strengthened with Derbyshire Fire & Rescue Service. Recent experiences encountered during Brexit and the Covid pandemic successfully demonstrated how we work with a wide range of partners across Derbyshire to provide a joint response in planning and managing major incidents and disruption.

8. Insurance

- 8.1. The Commissioner continues to maintain, develop, and renew its insurance programme in order to minimise financial risks.

9. Health and Safety

- 9.1. Derbyshire Constabulary takes very seriously its responsibility for the health and safety of its employees and all who attend the premises where the business of Derbyshire Constabulary is conducted or are affected by our undertaking. The overall responsibility for health and safety matters rests with the Chief Constable, who ensures that effective procedures and processes are in place including a Health and Safety Committee.

10. Reviewing and updating standing financial instructions, a scheme of delegation and supporting procedure notes/manuals.

10.1. The Financial Handbook is reviewed and updated regularly to ensure it remains fit for purpose. This clearly defines how decisions are taken and the processes and controls required for managing risk. The Financial Handbook is regularly reviewed to ensure that it continues to be aligned to the structure of the Constabulary and the OPCC. Procedure notes and manuals are in place for all key systems and are also reviewed regularly. A Scheme of Delegation sets out financial authorisation levels for police officers and staff throughout the organisation. A Medium-Term Financial Strategy is in place and is fully linked to the organisation's strategic priorities and objectives. At an operational level, rigorous and regular budget monitoring takes place, and a well-established fraud assurance programme is in place. Robust management of income collection and debt recovery continues. The Internal Audit of Core Financial systems and processes is included within the Annual Audit Plan.

11. Ensuring compliance with relevant laws and regulations, internal policies and procedures, and that expenditure is lawful.

11.1. Processes for ensuring compliance with relevant law and regulations are well established and work effectively. The Chief Finance Officer has statutory responsibilities in this regard, and Internal Audit provides an assurance function and an annual independent objective opinion on the control environment, comprising risk management, internal control, and governance.

11.2. All reports to the Chief Officer Team and Governance Boards together with all reports presented to the Commissioner must consider legal implications.

12. Determining the conditions of employment and remuneration of officers and staff, within appropriate national frameworks.

12.1. Processes for determining the conditions of employment and remuneration of officers and staff within appropriate national frameworks are well established. Modernisation of police pay reports go to the Chief Officer Team detailing financial impacts, risks, and progress to date.

12.2. Regular equal pay reviews are undertaken and there is a focus on maintaining market competitive pay and benefits. The Constabulary operates an approved job evaluation scheme based upon role profiles for each post. Regular strategic and local consultation is undertaken with staff associations and trades unions.

13. Identifying the development needs of senior officers and staff in relation to their strategic roles, supported by appropriate training.

13.1. The Constabulary has an Annual Development Audit, which has been designed to take a more proactive approach to identifying, managing, and monitoring work related and personal development objectives for all Police Officers and Police Staff.

13.2. Training programmes are available through the regional learning and development structure, the College of Policing, other professional bodies, and external suppliers where appropriate.

14. Establishing clear channels of communication with all sections of the community and other stakeholders, ensuring accountability, and encouraging open consultation.

14.1. Derbyshire Constabulary is committed to ensuring our service meets the needs of the people of Derbyshire. Due regard has been taken of emerging stakeholder processes such as the Commissioner's Police and Crime Plan and public engagement across Derbyshire.

14.2. The 'Safer Together' Campaign has a comprehensive engagement strategy, facilitated by the use of the 'Derbyshire Alert' communications system as a means of consulting and sharing information with our communities.

15. Whistleblowing and receiving and investigating complaints from the public and handling citizen and other redress.

- 15.1. A confidential reporting policy is in place to enable officers and staff to report any concerns about malpractice or unlawful actions without fear of recrimination.
- 15.2. The Commissioner has made a commitment to putting things right and has a range of policies in order to deal with public complaints. Complaints against the Chief Constable are dealt with by the Commissioner; complaints against police officers or police staff that are under the direction of the Chief Constable are dealt with by the Chief Constable.
- 15.3. Complaint handling in Derbyshire Constabulary is monitored in regular meetings between the Head of Professional Standards Department and the Head of Governance & Compliance / Monitoring Officer of the OPCC or the Independent Police Complaints Commissioner.
- 15.4. The Code of Ethics, produced by the College of Policing, sets and defines the exemplary standards of behaviour for everyone who works in policing. The policing principles and standards of behaviour in the Code of Ethics promotes, reinforces, and supports the highest standards for everyone who works in policing in England and Wales.

16. Role of the Chief Finance Officer

- 16.1. CIPFA have published a 'Statement of the Role of the Chief Finance Officer of the Police and Crime Commissioner and the Chief Finance Officer of the Chief Constable', which describes the role and responsibilities of the CFO and sets out the five key principles that define the core activities and behaviours that underpin the role and the organisational requirements required to support them. There is an expectation that organisations will comply with the statement or explain their reasons for not doing so.
- 16.2. The five key principles are that the CFO: -
 - Is a key member of the leadership team, helping it to deliver and implement strategy and to resource and deliver the Commissioner's strategic objectives sustainably and in the public interest.
 - Must be actively involved in and able to bring influence to bear on all material business decisions (subject to the operational responsibilities of the Chief Constable) to ensure immediate and longer-term implications, opportunities and risks are fully considered and align with the overall financial strategy.
 - Must lead and encourage the promotion and delivery of good financial management, so that public money is safeguarded at all times and used appropriately, economically, efficiently, and effectively.
 - Must lead and direct a finance function that is resourced to be fit for purpose.
 - Must be professionally qualified and suitably experienced.
- 16.3. The Chief Finance officer undertakes the role in accordance with the arrangements detailed in the Home Office Financial Management Code and compliance with the CIPFA Financial Management code.

17. Standards of Behaviour

- 17.1. Codes of conduct are in place for police officers and police staff. Relevant officers in the Constabulary are also subject to professional codes of conduct for their particular profession. For example, the Chief Constable's Chief Financial Officer is bound by the code of the Chartered Institute of Public Finance and Accountancy (CIPFA), of which she is a member.

- 17.2. As a force, we are committed to the national Code of Ethics policing principles, a framework of ethical behaviour that the College of Policing introduced in 2014 to shape culture across forces. The force is clear on the standards it expects from its employees – as set out in the Code of Ethics. All new employees are made aware of this, and the wider behaviour expected along with how to raise concerns of potential corruption. All new joiners are given a PSD input during their initial training period by our prevention officer and covers everything from the standards of professional behaviour, code of ethics, notifiable associations, business interests etc. This is also reinforced to all employees on a regular basis, be this through lessons learnt or the outcomes of misconduct processes. These are communicated to all employees and where necessary, changes are made to relevant practices and procedures.
- 17.3. At least once a year, the Constabulary’s policy on professional standards is reviewed by Professional Standards and assessed based on its effectiveness and discrepancies over that period. Derbyshire Constabulary expects all members of staff to always be honest, truthful, and sincere. We will uphold, administer, and enforce all laws without bias or prejudice in a just, consistent, and reasonable manner.

18. Review of Effectiveness and Conclusion

- 18.1. The Chief Constable has responsibility for conducting a review of the effectiveness of the governance framework within Derbyshire Constabulary at least annually. This review is informed by the work of the Chief Finance Officer and Senior Leaders within Derbyshire Constabulary who have responsibility for the development and maintenance of the governance environment. In preparing the Annual Governance Statement for 2024/25 the Commissioner has placed reliance on this review and the Annual Governance Statement of Derbyshire Constabulary.
- 18.2. The Head of Internal Audit Opinion has reported that **“On the basis of our internal audit work, our opinion on the framework of governance, risk management, and control is Moderate in its overall adequacy and effectiveness. This opinion is provided on the basis that some improvements are required to enhance the adequacy and effectiveness of the framework of governance, risk management and control.”** Of the 8 audits undertaken during 2024/25, where a formal assurance level was provided, five received a Substantial level of assurance, one audit received a Moderate level of assurance, and two audits received a Limited level of assurance (Data Quality and Environmental Sustainability). A total of 24 new recommendations were made during the year at the Force and OPCC, with one recommendation categorised as High priority and 9 recommendations categorised as Medium priority. The recommendations raised were done so to enhance the existing framework or highlight areas of weakness within the current control environments. The Constabulary has already put in place actions and plans to address these weaknesses and implement the recommendations made by Internal Audit.
- 18.3. The Audit findings in respect of each review are summarised below.

Ref	Audit area	Assurance level	Recommendations				Accepted	Not accepted	
			High (Priority 1)	Medium (Priority 2)	Low (Priority 3)	Total			
01.2024/25	Wellbeing	Substantial	-	-	-	-	-	-	
03.2024/25	Estates Capital Programme & Funding	Substantial	-	-	2	2	2	-	
	IT – Incident & Change Management	Substantial	-	-	4	4	4	-	
07.2024/25	Occupational Health Unit	Substantial	-	-	2	2	2	-	
08.2024/25	Partnerships - Draft	Substantial	-	-	-	-	-	-	
05.2024/25	Core Financials	Moderate	-	3	-	3	3	-	
02.2024/25	Data Quality	Limited	-	4	3	7	7	-	
06.2024/25	Environmental Sustainability – Draft	Limited	1	2	3	6	6	-	
	Governance & Oversight		Deferred to 2025/26 Internal Audit Plan						
	Assurance Framework		Deferred to 2025/26 Internal Audit Plan						
	Total		1	9	14	24	24	-	

- 18.4. The Audit of the Statement of Accounts for 2023/24 is complete and was formally concluded by our auditors Grant Thornton UK LLP in February 2025, the Audit Certificate has been issued, and the accounts were published on 27th February 2025, in line with the backstop deadline set out within 'The Accounts and Audit (Amendment) Regulations 2024'. In their Audit Results Report for 2023/24, the External Auditor reported that, whilst they completed a significant amount of audit work, it was not possible to undertake sufficient work to support unmodified audit opinions in advance of the backstop date of 28 February 2025. As a result of the backstop, the Financial Statements for 2023/24 (similarly to the previous two years 2021/22 and 2022/23) resulted in a 'Disclaimed Opinion' with no assurance given.
- 18.5. As Grant Thornton took on the External Auditor Role from 2023/24 the disclaimed opinions for previous years increased the volume of work required in auditing the 2023/24 Financial Statements to build back to a clean opinion, and this will continue to be a factor in the audit of the 2024/25 Accounts. The unaudited opening balances from 2023/24 led to a lack of assurance overall, and insufficient evidence meant External Audit were not able to conclude that the accounts were free from material and pervasive misstatement of the financial statements. There is therefore a risk of a disclaimer opinion in 2024/25 whilst appropriate assurance is built up for the brought forward balances.
- 18.6. It is important to highlight that the disclaimed opinion does not mean that the Financial Statements are mis-stated; it is a reference to the lack of resources or time available to reach a conclusion. The disclaimed opinion should not be seen as a reflection on the quality of the financial statements or of our commitment to work with our external auditors in responding to information requests.
- 18.7. During 2023/24 His Majesty's Inspectorate of Constabulary and Fire & Rescue Services (HMICFRS) conducted a PEEL 2023–25 Inspection. The Inspection assessed how good Derbyshire Constabulary is in nine areas of policing and made graded judgements in eight of those areas. The Constabulary was graded '**Good**' at Preventing Crime and received a grade of '**Adequate**' in three areas and '**Requires Improvement**' in 4 areas:

Outstanding	Good	Adequate	Requires improvement	Inadequate
	Preventing crime	Police powers and public treatment	Investigating crime	
		Managing offenders	Responding to the public	
		Developing a positive workplace	Protecting vulnerable people	
			Leadership and force management	

- 18.8. The Inspection report indicated that as a force we are making progress and found that the constabulary had responded and addressed many of the areas for improvement from the previous PEEL Inspection report (2022) and recognised that the scale of change needed means that some improvements needed more time to achieve. There were however important areas of policing - investigating crime, responding to the public and protecting vulnerable people, which still required improvement.
- 18.9. The Report highlighted that the constabulary needed to make sure its investigations are effective and properly supervised and that it needed to improve outcomes for victims of crime and make sure that victims are receiving the level of service they are entitled to. The report commented that the constabulary isn't yet providing a good service for the public in some key areas, such as responding to the public, investigating crimes and protecting vulnerable people.
- 18.10. The Constabulary remains focused on improving its performance and the service we provide to the public and All Areas For Improvement (AFI's) highlighted from the PEEL Inspection are aligned to governance boards for regular updates and with a requirement to demonstrate progress and improvement.

18.11. The force made strong progress against its AFI's during 2024/25 with the following areas from the latest PEEL Inspection being successfully closed:

Protecting vulnerable people
Requires Improvement
<i>The constabulary needs to make sure its domestic abuse risk assessment process considers the full range of risk and harm and the full context of previously reported incidents</i>
<i>The constabulary should consider vulnerable victims' experience of its services and actively work to make improvements based on their feedback</i>
<i>The constabulary should proactively monitor preventative orders to reduce the risk of reoffending and increase safeguarding to victims</i>

Managing offenders and suspects
Adequate
<i>The constabulary needs to improve how it oversees and monitors use of pre-charge bail and released under investigation</i>

18.12. The remaining AFI's are being managed carefully across the organisation with plans in place to address these gaps and deal with those requiring specific focus in the later part of 2025

Police powers and treating the public fairly and respectfully
Adequate
<i>The constabulary needs to improve its officers' confidence in using stop and search as an investigative tactic</i>
<i>The constabulary needs to improve its training for recording the use of force, and better support officers to follow force policy and improve data quality</i>

Responding to the public
Requires Improvement
<i>The constabulary needs to improve the time it takes to answer emergency calls</i>
<i>The constabulary should attend calls for service in line with its published attendance times, make sure that deployment decisions are supervised effectively and update the caller when there are delays</i>
<i>The constabulary needs to better support officers to make the most of early evidence opportunities</i>

Investigating Crime
Requires Improvement
<i>The constabulary doesn't consistently achieve appropriate outcomes for victims</i>
<i>The constabulary should make sure there is supervisory oversight of investigations to make sure that all appropriate investigative opportunities are taken</i>
<i>The constabulary needs to make sure that it complies with the requirements of the Code of Practice for Victims of Crime</i>

Building, supporting and protecting the workforce
Adequate
<i>The constabulary needs to do more to support the development and inclusion of people from under-represented groups</i>

Leadership and force management
Requires Improvement
<i>The constabulary should make sure that problems and performance issues are raised to the appropriate level within the constabulary's governance structure</i>
<i>The constabulary should scrutinise the implementation of any changes to make sure they are achieving their intended aims</i>
<i>The constabulary should make sure that leaders at all levels are visible, so that staff and officers are appropriately supported and challenged</i>

18.13. Under Leadership and Force Management section of the Report, HMICFRS found that:

- The constabulary shows effective financial management. It makes the best use of the finance it has available, and its financial plans are well thought out and sustainable.
- There is a clear link between the constabulary's financial plans and its other plans and priorities.
- The medium-term capital plan shows that the constabulary invests in its services to achieve improvements in performance.
- The financial forecasts in the medium-term financial plan are based on realistic assumptions about future funding and expenditure.
- The constabulary's financial plans are affordable, but it will need to consider a potential exit from a private finance initiative.

18.14. A project commenced in January 2025 to develop the force strategic plan 2025-2027. This seeks to incorporate the findings from the self-assessment against the new PEEL assessment framework, together with activity to deliver against the Chiefs priorities and Police and Crime Plan. Significant stakeholder engagement is taking place across the organisation to inform this plan, to ensure strong alignment across the organisation. This is anticipated in Summer 2025 and will include reframing our operational priorities to improve relatability by the workforce. Each self-assessment area will lead to recommendations around KPIs to better understand our demand and performance, alongside audit bids to monitor progress.

19. Environmental Sustainability

19.1. The Constabulary has issued a Joint 'Net Zero and Sustainable Development Strategy' with Derbyshire Fire and Rescue Service. The strategy aims to ensure that the Force achieves its ambition for Net Zero emissions by 2050. Action plans have been formulated and a project tracker has been developed and is being implemented.

20. Declaration

20.1. This Annual Governance Statement demonstrates that a sound governance and decision-making framework exists in Derbyshire and is subject to regular review. Where significant governance or control issues are identified, an action plan is produced to address them'. We propose over the coming year to further enhance and embed our governance arrangements and respond to the HMICFRS areas for improvement. We are satisfied that these steps will ensure that Derbyshire Constabulary's governance processes continues to remain effective in a changing environment and that our decisions are open and accountable.

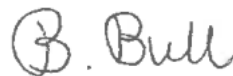

Signed:

Rachel Swann QPM
Chief Constable of Derbyshire
Constabulary

Date: 23rd February 2026

Signed:

Bev Bull FCPFA
Chief Finance Officer
Derbyshire Constabulary

Date: 23rd February 2026

DEFINITIONS

Accounting Period

The period of time covered by the accounts, normally a period of twelve months commencing on 1 April.

Accruals

The concept that income and expenditure are recognised as they are earned or incurred, not as money is received or paid.

Agency and Contracted Services

Services which are performed by, or for, another Authority or public body where the agent or contractor is reimbursed for the cost of work done.

Budget

A statement of the Group's (financial) plans for a specific period of time. A budget is prepared and approved by the Commissioner prior to the start of the financial year. The Commissioner's budget is prepared on an out-turn basis which means that increases for pay and prices during the financial year are contained within the total budget figure.

Capital Adjustment Account

The capital adjustment account reflects the difference between the cost of fixed assets consumed and the capital financing set aside to pay for them. It provides a mechanism between the different rates at which assets are depreciated under the Code and are financed through the capital controls system.

Capital Expenditure

Expenditure on the acquisition of a fixed asset or expenditure which adds to the life or value of an existing fixed asset.

Capital Financing Requirement

The Capital Financing Requirement represents capital expenditure financed by borrowing and not by capital receipts, revenue contributions, capital grants or third party contributions at the time of spending. It measures the Commissioner's underlying need to borrow for a capital purpose.

Chief Constable

The Chief Constable is a separate corporation sole which was established on 22 November 2012 under the Police Reform and Social Responsibility Act 2011.

CIPFA

The Chartered Institute of Public Finance and Accountancy. This is the main professional body for accountants working in the public services.

Commutations and lump sum retirement benefits

These are the amounts paid to officers when they retire, if they choose to have a lower pension.

Contingent Assets/Liabilities

A potential asset/liability at the balance sheet date when the accounts are submitted for approval. The asset/liability will be included in the balance sheet if it can be estimated with reasonable accuracy otherwise the asset/ liability will be disclosed as a note to the accounts.

Corporate and Democratic Core

This represents the costs of delivering public accountability and representation in policy making and meeting our legal responsibilities.

Creditors

Amounts owed for work done, goods received or services rendered which have not been paid for by the end of the financial year.

Debtors

Sums of money due for work done or services supplied but not received at the end of the financial year.

Defined Benefit Scheme

A pension or other retirement benefit scheme, with rules that usually define the benefits independently of the contributions payable and where the benefits are not directly related to the investments of the scheme. The scheme may be funded or unfunded.

Depreciation

The measure of the wearing out, consumption, or other reduction in the useful economic life of a fixed asset, whether arising from use, the passing of time or obsolescence through technological or other changes.

Fixed Assets - Intangible

Intangible assets are defined as 'non-financial fixed assets that do not have physical substance but are identifiable and are controlled by the entity through custody or legal rights', for example, software licences.

Formula Grant Distribution System

A mechanism by which Central Government determines how much Revenue Support Grant, Home Office Police Grant and Business Rates each local authority should receive in a given year to provide a common level of service. For the police service it is principally based on the resident and daytime populations, plus relevant socio-economic characteristics, for the area covered by an authority.

Group

The term Group refers to the Commissioner and the Chief Constable.

Impairment

A reduction in the value of a fixed asset below the amount shown on the balance sheet.

Leasing

A method of financing capital expenditure where a rental charge is paid for a specified period of time. There are two main types of leasing arrangements:-

- (a) finance leases which transfer all of the risks and rewards of ownership of a fixed asset to the lessee and such assets are included within the fixed assets in the balance sheet.
- (b) operating leases where the ownership of the asset remains with the leasing company and the annual rental is charged direct to the revenue account.

Net Book Value

The amount at which Plant and Equipment are included in the balance sheet and being their historical cost or current value, less the cumulative amounts charged for depreciation.

Non Distributed Costs

The cost of discretionary benefits awarded to employees retiring early. These are overheads which are not charged or apportioned to activities within the service expenditure analysis in the Operating Cost Statement.

Police and Crime Commissioner (PCC)

The Police and Crime Commissioner (PCC), known as the 'Commissioner', is a separate corporation sole which was established on 22 November 2012 under the Police Reform and Social Responsibility Act 2011.

Provision

An amount set aside to provide for a liability which is likely to be incurred but the exact amount and the date on which it will arise is uncertain.

Receipts and payments

Amounts actually paid or received in a given accounting period irrespective of the period for which they are due.

Revaluation Reserve

This reserve records the net gain (if any) from revaluations.
