

**THE OFFICE OF POLICE AND CRIME COMMISSIONER
FOR DERBYSHIRE
DECISION RECORD**

Request for PCC Decision	Received in OPCC Date: January 2023	OPCC Ref: DN10-23
---------------------------------	--	--------------------------

Wireless Deployment

There is a requirement to provide a Wi-Fi first network provision across Derbyshire Constabulary, driven by a Network Strategy (May 2021) with the outcome of a 'Next Generation Network' that will facilitate connectivity in line with technical growth for Derbyshire Constabulary over the next 5 years. We engaged with TET limited who are an established technology provider, on the forces requirements and they provided a response which confirmed that they are best placed to provide the installation via a subcontractor. The subcontractor is Whitestar, and they specialise in Wi-Fi surveys and access point installations, with current high demand on internal network resources, this option has been decided by IS as the most suitable option to complete the site surveys and access point installations to facilitate this project as a timely solution. The outcome being that all sites will be surveyed, the most efficient locations for access points identified to allow internal Network engineers to create heat spot maps.

The Priority sites have now been identified for the access points to be installed and the wireless deployment is to commence across these sites.

A route to market has been identified via the NHS Shared Business Services Digital Workplace Solutions Framework and offers a compliant route to market via direct award.

The total value of the contract is £19,748.99, and this is to cover the full term of the contract.

Decision

Approved

Declaration

I confirm that I have considered whether or not I have any personal or prejudicial interest in this matter and take the proposed decision in compliance with the Code of Conduct for the Police and Crime Commissioner for Derbyshire. Any such interests are recorded below.

None

The above request has my approval.
