Dear

FOI Request: 40/2021

I write in connection with your request for information received in the Office of the Police and Crime Commissioner for Derbyshire on 26 October 2021. You asked the following questions:

These questions are for the geographical area you cover.

1. How many complaints of abuse from children being looked after by the local authority have you investigated each year since 2010 either by calendar or financial year (whichever option is easier)?
2. What are the risks of a single adult male or female sleeping at the side of the road or at a service station with a young child in a car seat also in the car? Is this illegal?
3. How often have requests been made under Clare's and Sarah's law each year since 2010 by either calendar or financial year (whichever option is easier) Can these statistics be broken down into requests by males and females or do the statistics only cover all requests?
4. What is the criteria used for a person to be identified as a risk under Clare's and Sarah's law?
5. Are all incidents of domestic violence and sexual assault logged on the system even if no arrest or prosecution takes place. Would these results show up under Clare's and Sarah's law?
6. How many false claims of sexual abuse have been reported each year since 2010 by either calendar or financial year (whichever is easier) and can these statistics be broken down by male and female reports?
7. How many domestic / sexual abuse claims are dropped by the complainant each year since 2010 by either calendar or financial year (whichever is easier) before an investigation has been completed?
8. Would the police like to see changes made within the domestic / sexual abuse systems to help them do their jobs better and lower the number of incidents?
9. How often do the police respond to incidents of missing children per year since 2010 by either calendar or financial year (whichever is easier) do the police keep separate statistics for children missing from local authority care or how long each missing incident covers (few hours, days, weeks, never found)?
10. What do the police think about the proposed 888 app to track females when they go out. Do you think it will work? What are the benefits and downfalls to this proposed system from a police perspective?
11. Do child social services raise concerns with the police in regards to domestic violence (adult vs adult)? If so, are these reports logged on the system to formulate any statistics? If not, would it be beneficial for these incidents to be logged?
12. Have the police made any connection between domestic abuse victims and Stockholm syndrome?

This is to inform you that the Office of the Police and Crime Commissioner for Derbyshire does not hold the information you have requested based on the information you have provided.

Derbyshire Constabulary may hold this information and I give below a link to the Force's website where you can make a FOI request to them direct.
